At the same time, the more color of the paper in your color, the higher the result. It is important that at the moment of joining the new territory, other players can kill you instantly if they hit the track from the movement of the avatar. You can also reduce the lines of opponents and capture their space. Let's find out who! Before the Paper.io is unblocked online, see the list of deadly leaboats leading to instant loss:The player faces the edge of the grid; Your opponent is shashing your trail; The player crashes into his own catching line. How to play Paperio with skinAs the first Paper io game always takes place without avatars - you control the bare square and the color of the base is appropriately uniform. But as great achievements grow, images of skins open up, they are tied to themed holidays and achievements in the game. Coins are allocated for each round of games in Paper.io, their number depends on the percentage of land seized and the number of enemies killed. The percentage of the ball is multiplied by 8, and the number of killings of opponents with 30. The aggregate of these two calculations is revenue. If you see a checkpoint message during a game, that amount doubles. For the game Unblocked games with a skin avatar, press the game button at the bottom of the screen and select the corresponding image on the header screen. It also sets the choice of mode - classic, speed, slow or mirror.
