You can create shortcuts to applications as well as processes and activities. This means that you can create a shortcut to WhatsApp as easily as you can create a shortcut to an operating system that you usually don't have easy access to. One of the strengths of OuickShortcutMaker is that it allows you to customize your shortcuts. You can select the icon as well as the shortcut name, making it easy to mask shortcuts if you choose. QuickShortcutMaker is an app that offers more than you expect at first glance. It's perfect for quick access to your smartphone When it comes to customization, android OS is great thanks to the growing popularity of starters - not to mention the multiple layers of manufacturer customization on any different device. However, although there are tons of free apps out there that add visual and functional upgrades to your phone or tablet without requiring complex setup processes - and all for free to boot. Today's list brings together eight apps to make changes that run the range from which items appear in the notification bar to how buttons are held on your device. Read more Make your own custom combinations with QuickShortcutMaker This app like QuickShortcutMaker This ap this free tool allows you to create shortcuts on your Android home screen not only for apps, but also to system services, plus customize the name and icon for everyone, so everything is exactly how you like it. Read more QuickShortcutMaker Apk is a reliable, stable and easy process of creating shortcuts for installed activities on your mobile device. The process can only be used for each activity. The tool allows you to create a WhatsApp shortcut on devices in a simple way as you can do on your PC or laptop. QuickShortcutMaker Apk features 1. Steps to create shortcuts Give a long touch to the Home screen buttonLong-tap ActivitiesSlide the icon to the suggested location on the screenWay the program startsChoose the editing activity and press the button CreateYou successfully created a shortcut on your screen 2. Discover shortcutmaker apps helps you search for the necessary apps. And if you want to run apps that you haven't used normally, the program will search for you and give you easy access to such apps.
