Clash of Clans - a great strategy ramp rpg, great graphics and some kind of gameplay. The game is about confrontation between people and goblins. We must play for the people, and the main objective is the destruction of the enemy clan. The game begins with training, which is very easy to perceive thanks to special markers, and the lack of Russian localization in any way does not prevent a comfortable game clash of clans. Here you can choose between the two main modes. The first mode is the construction of its own territory, the second is combat mode on the enemy map. There is also a version of the battle site if you are attacked by goblin troops. The basics of the game process consist of construction, creation of items and accumulation. It is possible to collect both plain gold and mysterious purple elixirs, according to features reminiscent of all the same gold. The outcome of the fight in combat mode depends largely on how units and combat weapons are deployed. In conclusion, it should be said that Clash of Clans is a very unusual strategy for Android devices. Gameplay and graphics here are at the highest level, but the rest of the components are also on top. The game will certainly appeal to strategy lovers, as well as those who like to play for a long time on their smartphone or tablet. Page 2 Download Guests can not request updates!
