(use the search bar to find the centaur page). It is the most realistic sex toy with which you can adjust the firmness. Also choose between four sizes and three colors (black, bronze brown and grayish). It is made of the highest quality platinum silicone. Centaur has a flared base that gives an incredible doll once you get past the tip. That doll alone will make you shake. The texture, ledges and veins feel crazy. It's going to feel totally different from a man's dick. If you get excited by the fantasy of getting fucked by a horse (or its size), this dildo is the one you need. Centaur dildo has a really wide flat base which makes it look beautiful on its own. This makes for really comfortable use of harnesses with O-ring or Vac-U-Lock. You choose from 4 sizes: Small has a plug length of 9.75 inches, near head circumference starts from 5.5 Medium has 11 plug-in length, circumference starts from 6.5Large has 12.75 insertable length, circumference starts from 7.5XXL has 14.75 plug-in length, circumference starting from 8.75 Small or medium sizes will be more than enough for 90% of enthusiasts. You can additionally add balls to the centaur dildo if you nod. Sinnovator Dark Horse Quality budget pick Size Choices: 1 | Input time: 10 inches | Material: Platinum Silicone | Color choices: 12 (for extra \$13) | Softness choices: | Harness Harness Yes | Suction cup: Yes this is incredible quality but manageable format highest quality platinum silicone horse dildo. Most people will be satisfied with a 10 insertable length. Working up to 8.8 circumference will still be a challenge. It's not the craziest size, but this would be my top choice. If you are looking for a manageable size of something larger than the average sex toy. It has a nice base and a good weight. The firmness ensures that there is enough bending to aim just in the right place. For extra few dollars, you vac-u-lock or choose between 11 more colors. Fuck Muscle Black Beauty Size Choices: 1 | Input time: 15 inches | Material: PVC | Color choices: 1 – Black | Softness choices: Medium-proof | Harness compatible: Yes, with O-ring | Suction cup: Yes First of all, I can't recommend this with my best conscience. But this PVC huge dildo is still included. I know that some people can't afford to spend around a few dollars for a huge top quality silicone dildo. Want a vain dildo with insertable 15 and a strong suction cup? This is the sex toy for you. You have to spend about a few dollars because a quality silicone material and quality suction cup is not cheap. This PVC 15 horse will only get you back for a few dollars. Everything is perfect about this beast. The fact that PVC is a porous material that cannot be 100% cleaned. Over time it will deteriorate and harbor bacteria. If you just want to experiment with something big use this for a test drive. Just know that it is not safe to use for a longer time and you need extra focus on cleaning this sex toy. Sinnovator Realistic Platinum Silicone Size Choices: 1 | Redeemable length: 16 inches | Material: Platinum Silicone | Color choices: 12 (for extra \$13) | Softness choices: Medium-proof | Harness compatible: Yes, with O-ring | Suction Cup: No (Flat Base) Looking huge size? Willing to invest in the highest quality platinum silicone option? This is the one for you. This bad boy weighs almost 2kg and may be too big for some. Make sure you have something smaller to warm up with. And make sure you know what you're getting yourself into. It would be a shame if you didn't use it because your eyes got bigger than your hole, wouldn't it? This horse has a flat base that fits perfectly with strapon harnesses. For the extra price you choose different colors or add a Vac-U-lock hole. For real size queens. Extra Girthy Snorkel Size Choices: 1 | Plug-in length: 13.5 inches | Material: Platinum Silicone | Colour choices: 3 | Softness choices: 2 – Medium Firm or Soft | Harness compatible: Yes, with O-ring | Suction cup: No (Flat base) Okay, we covered the length, but what if you really crave that outline from the beginning? Snorkeling is what you're looking for (the ultimate dive). The circumference is 6.75 to the right the beginning. Then the length itself is quite smooth making it easily slide up and down. While another sex toy focuses more on veins and ledges that feel great but make sliding a little more difficult. Snorkel has a wide flat base that stands on its own and is very comfortable to use with harnesses. You choose the firmness and colors, but it comes in a size - 13.5 plug-in. This is what Snorkel dildo looks like in real life: Avant D4 7 Size Choices: 2 | Input time: 7 inches | Material: Silicone | Colour choices: 2 | Softness choices: Medium-proof | Harness compatible: Yes, with O-ring | Suction cup: Yes we've covered all the huge horse, but you need something smaller to warm up with. Now this Avant D4 looks friendly, still has 7 in insertable length. The backs are like the horse ones. You don't have to be a great queen to enjoy this. It fills nicely for P or G-spot, and after this, you can venture to super large horse dildo models. There are quite a few size and shape options... It's going to D6. The smooth texture makes for easy insertion and sliding up/down. SquarePeg Happy Hour Butt Plug for Anal Stretching Size Choices: 3 | Insertable length: 5-5.75 | Material: Platinum Silicone | Colour choices: 1 – Bronze | Softness choices: Supersoft | Harness compatible: Yes, with O-ring | Suction cup: No (T-base for comfortable wear) The fastest way to stretch a larger sex toy is to wear a butt plug for a longer time. SquarePeg is one of the best long-term wear (if not the best) in the business. They look deceptively large, but are made of super-soft silicone with lots of giving. This allows you to adjust your butt anatomy. Some people also use it as a vaginal opener sex toy for bigger things (remember to clean it properly after butt use). It has a T-shaped base that fits really well between the buttocks. It becomes imperceptible, even while sitting. You choose from 3 sizes and have a nice stimulation thanks to the shape of the plug. This is the fastest way to stretch to be able to take a huge horse dildo ☺ A in any size queens toy box. Introduction To The Huge & Realistic Horse Cock Dildos There's something super naughty and exciting about the idea of being able to take a horse-mate dick, huh? If there's anyone who's up, it's a stallion, right? Size queens (and kings) cheer when by a horse no longer need to be a fantasy. If nothing else, use these animal sex toys with a harness to intimidate your partner or fill him/her like never before. It is also very nice to attach this to a fucking machine for hands-free and tireless gratification. There are all sizes and shape nowadays But you have to be careful about choosing a high quality body-safe silicone option. Yes. Amazon will let you serve cheaply. But unless you like infections, you like, or burning the skin, you should not go that route. Then there is a question of realism. What does an anatomically correct horse cub look like? First of all, the average male penis size is between 5.1-5.6. Now, while not aroused a horse penis is about 50cm in length and about 8-15 circumference in circumference. During erection horse penis increases in size around 50%. Especially the flared head takes 3-4x large. Read more about the anatomy of the stallions here. What is a realistic size that people can take? Well, 9.5 in length is more than enough for women (even size queens) to take vaginally. You don't stretch it along the cervix. Even after giving birth, you won't be able to take pleasantly much more than that. Yes, you keep stretching in circumference, but not length. How about? there is no real limit, it will just take a long time to stretch those sphincters. A good rule is to have toys that increase in circumference 0.25 diameter or 0.8 in circumference. Those huge horse are expensive. They are about 1-2kg platinum silicone after all. It would be a shame to spend that money for something you don't use. Start small and avoid eyes bigger than the hole dilemma. What do you need to know about stallion Dildos? You should know that because of the super large size, horse (especially body-safe) are not cheap. Mistakes will be pricey, so it really pays to think about what you want upfront. Choose the size you can enjoy comfortably. Choosing the right size and material softness To choose the right size avoid getting something a lot bigger than what you currently own and enjoy. It is exciting, but circumference should be increased by 0.25 diameter or 1 circumference steps. Anything more than that will be unsafe and potentially harmful. But for most horse there are several jumps in elevated circumference. So you need to make sure you deal with the first tip circumference and then keep working on stretching the hole. Talking about length... Horse are the longest out there. But you don't have to get all the length right away. You can take 1/3 or just 1/2 and work on it slowly, which actually makes a horse dildo a good investment. A good size horse dick dildo keeps you busy for a while. Watch the perimeter! How do you choose the right firmness? Choose soft firmness for larger sex toys. Yes, they will bend more. But you always keep them in the middle of the shaft, making insertion easier and more pleasant. Think of soft firmness as 75% erect penis and medium-firm becomes like a straight penis. With higher quality sex toys (like Mr.Hankey) you choose the firmness level - medium or 75% soft. Basically, all the huge horse are squishy. Yes, they there's scary, but there's quite a bit of giving making those ledges. The detail feels fantastic while wonderfully filling. Filling. The sturdy silicone is softer than a hard penis and feels like hard gummy candy. Bringing It All Together Now you are equipped with the best horse dildo plus the knowledge of how to stretch yourself for ultimate pleasure and satisfaction. Good luck, enjoy and embrace the naughty you! Life is better naughty ☺ And if you have useful experience and stories you would like to share, I'll see you down in the comments section! Cheerio! Cheerio!
