Stations, Ships, Military Bases ... And lots of fun game modes: World Hunting Patrol organized team, Tower Defense, Death Arena, Initial feature loud and very special is hidden and pursued. Introduction to GameGame FeaturesReviews Game CrossFire Legends Mod ALK (Mega Mod). Crossfire Legends is a very high quality mobile FPS game developed by Tencent based on the game Raid once stormed onto the computer. However, the graphics are very based on raid (released in 2007), making it difficult to compete with many other FPS mobile games, which tend to become more beautiful. Last year was a move to remake Crossfire Legends and update graphics in HD. But that's probably not enough when Tencent recently launched a plan to create a copy of this game called Crossfire Legends: Last 12 Hours. Although only a few conceptual arts have been presented, it seems that this aspect of Crossfire Legends 2 today will focus on a very hot survival. Accordingly, with the main context is the jungle, the player even has the opportunity Ignite a fire in the heat? In several other photos it seems that one of the maps of crossfire legends has also been remade to become more beautiful But one of them introduces us to a desolation scene that looks quite similar to the post-apocalyptic world, players can also look at the shadow of zombies. It's probably about the popular zombie game mode crossfire legends in addition, it should be noted that in terms of game graphics, it also promises to be on a new level when bringing visual attractiveness to the map system as a design perspective for the details of the scene game. .
