Download Summertime Saga APK latest version now – Play in the genre of extremely interesting visual novels publisher Kompas. Table of ContentsNameSummertime SagaJavnikKompasCategoryNSFWVersion0.20.5 (Latest)Size752MMOD FunctionsCheat MenuRequiresAndroidSummertime Saga is an extremely interesting visual romanesque game by publisher Compass. This game acts as a simulation game where you can explore the life of a teenager who is studying in high school. This guy doesn't know that a lot of activity and interesting events are going to happen this volatile summer. Like Fap CEO, the game has several NSFW scenes that require you to be at least 18 years old. The Summertime Saga story is about a guy in high school. My father took his second wife, so he had a stepmother (Debbie) and a half-sister (Jenny). When his father died, he had to move to the suburbs to live with his stepmother. His father owes a large sum of money to a mysterious gangster gang, he had to find a way to earn money to pay the tuition and the money his father owes. GameplayTho the story of the game is related to the mafia and gangs, you do not have to fight or join shootings like Grand Theft Auto. You're just a normal person with a normal life, like every other high school student in town. A normal life doesn't mean it's boring. There are many challenges and problems that arise every day, you have to face it calmly and find ways to overcome it. Summertime Saga owns 65 characters and 30 locations in the city. With a visual gameplay novel, you need to make conversations with the characters that appear in your life every day. They bring you information and requests that you need to make. Once you have completed the assigned tasks, you will receive valuable items and money that will help you pay for your life. Summer vacation After the story is told, you wake up in a room in the first scene. The room consisted of a broken computer, a telescope, a bed and some other objects. When you open your room, you meet your shinge, Jenny. She always seems uncomfortable and often calls you a loser. After a few conversations, you meet your stepmother on the ground floor. He suggests that you give a job for the summer holidays, which takes care of the garden for Erik's family. Erik's your classmate. The map icon in the upper-left corner of the screen helps you quickly move to locations in the city. After cleaning Erik, we're going to school. Principal Smith invited you to meet her and show you the transcript. Your label is too high and you miss most people. To graduate, you need to quickly introduce courses to improve your label. Since then, there will be a series of extremely interesting stories. You can't predict everything. In particular, the main character of Summertime Saga is a pretty lucky guy. Wherever he went, he met beautiful and hot girls. Are during summer holidays. Clean & CheatedSummertime Saga has two main modes, including Clean and Cheated. In pure mode, you must complete every story that the game requires. Finish each conversation and help the main character solve all his life's problems. One thing to remember is to listen regularly and remember conversations. Maybe it'll help you find the things you need faster. In addition, the varani mode works as a MOD version. This mode supports automatic selection and skip. At the same time, the game also gives you a lot of money, you no longer have money problems. GraphicsSummertime Saga has a wonderful design, like an animated film. The seaside town is beautifully described with colourful. The density of the population is not too crowded, you can feel the peace of the small coastal town. I especially like the way they create hot girls in this game. Girls have an extremely beautiful and sexy look. I can play this game for hours without getting bored. About the Summertime Saga APKWhat is the Summertime Saga APK?
