CUPRINS (UPDATE LAST)WALKTHROUGHYou will start the game with the image of Professor OAK that appearand introduces you to the world of Pokemon. Select NO INFORMATION if you don't need guidance. Then you'll choose your gender and your name. PART 1: JOHTO JOURNEYAfter entering the game, as usual, you will begin your journey to your familiar roomin NEW BARK TOWN. Going down, Mom will come talking and then the menu keys under the home screen will be turned on, save the game again. Go to Professor ELM's lab, after talking a few sentences with your friend, you will receive a call from MR. POKEMON and please bring the delivery, you will be given a pkm by the teacher on this mission. Go to the pokeball machine and pick yourself a companion to stay with you forever! Press key A to choose 1 of the 3 STARTERS, here are some basic things about each pkm for you to help with the choice:-CHIKORITA: the ultimate radicalization is Meganium, this is a powerful pkm grass system on defense, but its attack power compared to the other 2 starters is much lower, and it will be detrimental to you to choose this child , since the pkm of the first 2 GYM is engraved with it (Flying and Bug) -CYNDAQUIL: is 1 pkm of fire with a strong Special Stat, Cyndaquil is a good choice for those who start the game for the first time, almost encountered k obstacles during the trip to JOHTO , but when playing at GYM along with you will be a little difficult, because the Fire type Cyndaquil type, of course, does not work with Dragon pkm-TOTODILE: johto's last starter, pkm This water has a good Attack State and easily combined with physical motion is the fall of the water, with this pkm you can easily pass the area GYM JOHTO. Once you have chosen pkm, a special thing in this game is that the first pkm in the team will come out with you, of course there are too big pkms (like Legends) that will go into pokeball in areas smaller than their size, so don't be surprised! Before you leave the lab, there is 1 employee who comes to give you 5 POTION, this is an item that recovers 20% hp of pkm, it will be useful for you at the beginning of your journey with low pkm level. Just outside LYRA will run to talk to you for a while, then you go home to talk to your mom, she will give you POKEGEAR, a device that stores phone numbers. When you're done, you'll hear the manual, try to wait a while!
