There are no results for Marine Radar Magnetron Eev Technologies Mg 5242 (IMI- 1125040671481). Visit the help section or contact us It seems that JavaScript is disabled in your browser. For the best experience on our site, be sure to enable Javascript in your browser. Founded and established in 1961, MG Electronics is a leading OEM supplier of electrical components and products for manufacturers and distributors. They highlight cost savings without compromising quality. Its customers are Fortune 500 companies and others that require quality products, factory prices and exceptional logistical support. Solarwave 62 is the first electric-powered hybrid yacht to cross the Atlantic Ocean, mainly powered by the sun. Due to MG's energy system it is almost self-sufficient, silent and emission-free, offering a new scale in reliability and luxury.
