## Something in the way lyrics

During this interesting season of quarantine, many of us have flocked to YouTube or elsewhere to learn something new. We have seen people of all ages doing choreographed dance numbers on a platform called TikTok. We've seen new bakers make cakes from scratch and the extra ambitious, creating Frozen-inspired masterpieces with fondant. We've seen people make their own coronavirus necessities – like patterned face masks and personal hand disinfectants. We've seen at home gel manicure. HOME GEL MANICURE! We've seen jars of goo turn into sourdough bread, perfectly scored and photographed for Instagram. We have seen pet owners train their cats to use the toilet or train their dogs to open the front door. We've seen barbers and hairdressers show up overnight, giving confidence to family members at home. We've seen people master yoga poses, learn to play saxophone, or solve a Rubik's Cube in record time. We've seen people make their own ice cream, learn how to arrange flowers, or start their own podcast. We've seen, we've seen, we've seen. But they say comparison is the thief of joy. And so, aside from everything I've seen others accomplish over the last few months, I'm here to share that I did something too. yes, I did something too. I fixed the squeaky rocking chair. Using a bottle of PAM cooking spray. This post comes from the TODAY Parenting Team community, where all members are welcome to post and discuss parenting solutions. Read more and join us! Because we're all in this together. Christmas shopping is here and the editors at Family Handyman want to make sure you're ready. We've put together dozens of gift guides and packed them with hand-picked gifts for absolutely everyone on your list. Happy Shopping! My place of employment is currently trying to clear out a warehouse full of things they don't use, and I've been given permission to have a flea market! I figured some of it could be used by the Instructables community to craft something amazing. The first thing to fight over is lots of (mostly) steel wire. The price is negotiable. Make me an offer or it gets dumped in the trash for a couple of weeks. I have lots of different things to get rid of some of the more useful things you can see here (I got some aluminum boxes of different sizes that could go), e-garagesale@pittraffic.com or PM here.
