Bright starts swing manual

As the first parent I remember being impressed with all the children's products. Which playmat and bouncy seat should we buy? Are we even going to use them? These are the kinds of questions I faced at the beginning, leading to a register of children with almost every item you can think of! Needless to say, we ended up with some things we barely used. Now, after two kids, I've learned that there are many great products out there... some use more than others and a few that I wouldn't want to live without. One of the children's products that I consider a must for our family is the baby swing. This is something we found necessary with both of our children.... especially in the first few months. Even though Kaden and I don't use the swing much, there are still times when he likes to sit in it for relaxation or fun, which is why I was thrilled to learn that we would be able to review the Bright Starts InGenuity Cradle & Sway Swing. Bright Starts is the place to go for must-have baby products. This is a company that many parents have grown to know and trust, and are committed to providing the highest quality, innovative and relevant products that are possible while still making them affordable for your budget. It also tries to inspire children's curiosity and confidence. After using Bright Starts products in the past, and being able to review their InGenuity Playard last spring, I was very excited about how we liked InGenuity Cradle & Sway Swing, which is also part of this series. We've always been very happy with the quality and innovative products from Brights Starts, so I'm hoping we'll feel the same way about this. Features and benefits: TrueSpeed™ Technology that maintains 6 swing speeds, Even if the child grows swings from side to side or back forward ('cradle' or 'swing') Whisper Quiet™ operation for peaceful swinging battery savings - more than 2x battery life comparable fluctuations Headrest and pillow decorates the system for maximum comfort Comfort Recline™ seat with 2 positions that meet the needs of the child Easily remove the tray - can lift left or right, or can be completely removed swivel Toy Mobile - swings out of the way for easy access to the children's Swing Timer with 3 settings: 30, 45, and 60 minutes Soft, plush toys on a tray and on mobile 10 Melodies and nature sounds calm the baby Pravit machine mat and headrest 5 point Harness keeps the baby safe Designed for age of birth and up to weight / height - up to 25 pounds When the swing arrived I was excited to get it together. With larger items, I usually wait for the help of my hubby, but I decided to try it myself. When I took all the parts out of the box, at first I felt a little overwhelmed. After reading the operating instructions and seeing how simple and user friendly they put each step out.... my mind was put on Although there were a lot of pieces, it was very easy to assemble using the instructions. Most pieces just snap into place, which means it doesn't take long at all. In about 15 minutes I had the swing together and ready to use. Even before I tried it with Kaden, I was already impressed with the quality. This swing is probably one of the most durable, well built that I have seen or used. It's very robust, which gives me peace of mind when Kaden's in it. I can say it's something that's going to take a long time. I also love how soft and comfortable the seat is. It includes a headrest and a half-machine, making it even more comfortable for the child. Kaden seems to be really enjoying it. Who could blame him?! I'd love to post it too! The great thing is that the seat cover, support and headrest can be washed in a washing machine. This is a must when it comes to baby products in my opinion, and something I really appreciate. To add to the comfort of the seat, there's the Comfort Recline™ with 2 positions (laying back and sitting). There is a button on each side of the seat that makes it easy to adjust. It also includes a 5 pt harness which is great for children of all ages. With Kaden in it, I know she's safe. One of the most unique features of this swing is that it allows you to give your child the movement that best suits their needs. The rocking seat rotates easily 180° either for swinging movement (side to side) or swinging (front to back). Depending on Kaden's mood, I think both settings are great and I'm really happy with that option. This is something we didn't have with the other swings we tried. As Kaden swings in it, I notice that it's very quiet, which is not only great for us, but also reassuring for him. Thanks to TrueSpeed™ there are 6 different swing speeds, 10 melodies and sounds of nature, as well as a swing timer with a choice of 30 min, 45 min or 60 min.... so finding the perfect setting for your child couldn't be easier. The innovative control unit on the swing is actually powered by Hybridrive™ technology, which is more efficient than any comparable swing and provides more than 2x battery life. For anyone with multiple children's items... You know how often you go through batteries. Having products like this that provide longer battery life is great! I think one of Kaden's favorite things about the swing is soft, plush toys on a platter and cell phone. You on a tray safely hook with loops included and loves to play with them! Mobile toys are absolutely adorable and hold his attention while swinging. Something I really like about mobile is that it rotates so you can easily swing it for easy access to the child. We were very happy with Bright Starts InGenuity Cradle & Sway Swing! The quality is fantastic, Features are great and soothing baby easier than ever. I highly recommend checking this swing! Buy: Bright Starts InGenuity Cradle & Sway Swing can be purchased for \$139.99. Win It: Bright Starts is generously offered by one lucky reader of InGenuity Cradle & Sway Swing like the one we received! Mandatory Entry-Visit Bright Starts and leave a comment, let me know another product you like. Other items: (Optional and valid only after the required enrollment is complete.
