When you immerse yourself in the world of MU Origin 2, you will have the chance to experience all the exciting games on your mobile devices. Check out all the amazing features in the game here: Right from the start, players will be introduced into a fairly simple control system featuring intuitive command panels. Here you will find all available options that allow you to comfortably control your hero, make quick moves, unleash powerful skills for enemies, and avoid their attacks. In addition, you'll have quick access to all available panels right from the beginning of the scene. This allows smooth and comfortable gaming. And like all other RPG games, players are also able to start their game with different hero classes, each with its own sets of powers and abilities. Currently, you can choose between 3 classes of heroes, which are a sage, mage, and archer. Depending on your fighting styles, you can choose the right ones for you. Being a schmeduly means players are equipped with both powerful defence and attacking ability. However, your combat range will be greatly reduced. Therefore, the heroes in this class are ideal for throwing them into enemies' lines to slow down, sustain damage, and resolve Blows at enemies. Still, keep in mind that you are not completely invulnerable, so make sure you resign in time. Geeks are the best heroes when it comes to moving attacks. Not only can they deal damage to multiple enemies, but these are also devastating attacks that can completely wipe out an entire group of monsters. However, they are vulnerable in the melee and can easily die if approached by enemies. In addition, it also takes a certain amount of time for mage heroes' skills to cool down. Therefore, they will have to constantly stay within range and are well guarded by tank units. While archers are unable to deal massive and wide-ranging damage like mages, they have a good range of attack and can deal constant damage to enemies. They are also less prone to melee attacks than geeks, making them a great unit to work together and cause chaos to enemies. In the world of MU Origin 2, players will have their chance to interact with millions of online players from all over the world. Compete with each other as you fight for the title of the best hero in the world MU. With lots of active players, you can easily meet cool people that you will find very friendly and comfortable.
