This is a composition course, so students are expected to write a lot. What I like about the activities is the method, since participants are encouraged to reflect a lot, revise, correct, etc., exactly what writers do in real life. In short, there are demanding but rewarding tasks, lectures are of high quality and help students, in my opinion, to understand the topics easily. The instructors are nice and care about the students' challenges. I'm Aziz from Morocco. I've always wanted to develop my writing skills especially academic writing, where I still have some problems. And I think this course is the perfect one for me to achieve this goal. Thank you edX and Arizona state university for this incredible learning opportunity and happy learning for every one enrolled in MOOC. - _Aziz Soubai Awarding expertise In corporate culture. A violation of the four-ounce standard occurs if the average of the total weight of the 10 smallest scallops in all the one-pint samples taken fails to meet the four-ounce standard. If a violation of the four-ounce standard is found among the black scallops from a particular vessel and treated as a separate unit for sampling purposes, the entire amount of scallops in possession or control will be considered in violation. If there is a violation of the four-ounce standard among scallops held by a dealer/processor, only the scallops treated as a separate unit for sampling (i.e. the total amount of scallops, up to 10 % sampled) will be deemed to be in violation.
