Bernd und das Rätsel um Unteralterbach – Quick GuideSystem: Mac/PC/LinuxWritten by: Mr. Hyde OnlineE-mail: mrhydeonline3000@gmail.comVer. 1.11. NOTES2. WHAT THE NUMBERS MEAN?3. REVIEW4. UPDATES, UNLOCKABLES, EXTRAS AND STUFF1. NOTES:I just found this jewel by accident. That tells me once again that good things are found when you're not looking for them. This game comes from Germany. I didn't know the Germans used to make lolicon hentai games. But they did it well with this game: Beautiful art and BGs, fun soundtracks and events and on top of everything: uncensored scenes! You can download the game and OST from here: option selection in this game is mainly of dialog selection menus (lined up one below others). So that's what numbers represent in this guide. This quick guide is oriented to help you score on lolis. You can also score on MILFS but if you do, you can't get all the loli scenes.2. WHAT DO THE NUMBERS MEAN? I think some of you need to find some confusing numbers in the WALKTHROUGH section. I'm trying to explain it.
