Use this powerful Video app and take 1 step further in videography. Application Name FiLMiC Pro Apk Version 6.12.6 Release Date December 23, 2015 Updated October 19, 2020 Developer Inc Supported On 6.0 and Up to Offline Mode Size 83 MB Photo Category FiLMiC Pro Apk is the best and most advanced video camera for Android with lots of options and customization options. In this application, you'll get improved advanced capabilities and the most responsive manual camera interface whose features aren't available in the most popular app. It has a free version available in the Play Store called FiLMiC Pro Evaluator to display the app's capabilities supported by your device. This is powerful software so you have to use it carefully otherwise your precious time could be wasted. It has been used in more high profile video projects than any other video app could do, you should try this one if you are really interested in it. Since there is a lot of application to record video, it is different from them because it has more option and assistance in it that will blow your mind, let's see them. Standard, manual and hybrid shooting modes. A shooting style for any skill level. Portrait (vertical) and landscape shooting directions. Variable speed zoom. High-speed flows of 60,120, 240 fps (dependent material). Slow and fast-moving exchange options. Configurable time lapse recording. Tri-mode histogram, including waveform monitor. Adjust video settings after capture (Exposure, contrast, saturation, hue, color temperature). Customizable registered personal presets. Appearance report framing guide overlays. Third guide for dynamic composition. Image stabilization. Rather than other video applications, it has 8 different resolution and aspect ratio that is more compelling and supports on most devices effectively which is why I suggest this software to use. HD Widescreen(16:9) Cinerama (2.59:1) Super 35 (2.39:1) Letterbox (2.20:1) Digital Cinema Initiative (17:9) Ultra Panavision (2.76:1) Square (1:1) It has 4 flexible encoding options to balance between the quality and size of the file and they are - Extreme (up to 100Mbps at 2k and higher resolution), Quality, Standard, and the economy. In addition, it supports third-party hardware like - Moondog Labs Anamorphic Adapter (2.40:1), 35mm lens adapters, Zhiyun Smooth 4 handheld motorized gimbal, and DJI OSMO Mobile mobile powered gimbal. FiLMiC Pro comes with the most advanced features like - headphone audio monitoring, dynamic audiometer, adjustable audio gain, stereo recording support, and support for external microphone levels. What decision did you make after read this? Are you ready to work with that or think about it? Don't forget to comment on your valuable thinking in the comment section. Note that FiLMiC Pro is ideally essential for smartphone filmmakers. Its manual control over your smartphone's camera is unmatched and the flexibility with anamorphic and depth of the terrain adapters makes a fun and easy learning experience. I just wish I could film at 4K 60fps with my my S9 and pass between its rear dual camera set up. Although this may be Samsung's fault and their lack of flexibility with third-party applications. Download SD Maid Pro Apk with Unlocker if your system storage isn't cleaned and run out. When you open the app, you will see an apk message without a license, This application is not allowed, please buy it from the game store . Don't panic about it, just click on the purchase and enjoy the full pro version unlocked for life. Pro Unlocked Version, Full Licensed Apk, Latest Version, Bug Fixed, You are led to download fiLMiC Pro 6.4.3 apk file for 6.0 and up. - Descarga la aplicacion gratuita FiLMiC Evaluator para descubrir qué caracter-sticas eston available in tu dispositivo 'FiLMiC Pro v6 es la APP de v'deo m'avanzada para...
