The 6th edition of the newly improved Board Certification Review Guidelines continued as an authoritative review tool for preparation for the Certification of The Certification Board (BOC) examination of the Medical Certification Board (BOC) and Medical Laboratory Technician (MLT). The new enhanced edition includes more than 200 new questions and dozens of updated and revised questions about the standard edition to make the state of this art study tool. Summary and embraced with a total of nearly 1,500 new and classic questions, the new ASCP Enhanced Edition 6th Study Guide is perfectly tailored to the study according to the current BOC content outlined for the MLS and MLT exams. To assist in the preparation of exams, there are many additional image-based questions over the previous BOC ASCP Study Guide Edition in Urinalysis/Body Fluids, Haematology and Microbiology. Standard currencies, especially in The Blood Bank, Microbiology, Haematology and Molecular Biology are brought to bear along, and the presentation of enhanced tube data for easier readability, makes the guidance of a 6th enhanced edition study more visually useful for exam prep than ever before.
