In a board game, Monopoly, is the distance from GO related to its rent when you land on it? Using Brian's spread sheet (property list, distance from GO, rent and rent with real estate) students create scattered plots. They graph points, draw the most appropriate lines, find average value (X,Y), judge outliers, and make predictions about new properties. As a teacher, you can choose to allocate this activity to be done by hand or equipped with Excel spreadsheet tools and skills.
