Top positive reviewsAll positive reviews> Chris5.0 out of 5 starsBest bang for buck drift car! March 23, 2018 In the United States, I have nothing to say!!! The best \$130 I've ever spent countless hours of fun! The gas double rate is amazing when my wife's 3 year old brother wants to play! Tandems amazing! He takes beating like a champion! I didn't break a single piece and went through 23 batteries. I have stocks of 1800 and 2200 and 5000, all NiMh. Never over heats up, even though I get full throttle cookies for minutes on end, and I bought a spare tire, but I don't think I'll need it this year! And I go slidewayz every day after work! Lol I love this car! Top positive reviewsAll positive reviews> Chris5.0 out of 5 starsBest bang for buck drift car! March 23, 2018 In the United States, I have nothing to say!!!
