Practice the letters A to J with this free printed alphabet book. Sit down with your child or students and scroll through the pages of the Book, each page comes with letter tracking practice, coloring objects (begging sounds) and coloring letters. Printed Alphabet Book This set of alphabetical worksheets has one letter per page. You can link all the pages together to make a book to study the alphabet. Educators (or parents) can also use these pages to print separately as worksheets for each letter of the alphabet. If you plan to use the pages individually, we recommend that laminate pages make them longer. Young learners will practice writing their letters as well as de-stress, as they color the images and letters on each sheet. There are two objects or animals on each sheet, both starting with the beginning of the sound of the letter. Preview the pages and pick up the file at the end of this post page 1 On the first page these two objects are apple and anchor. On the second page there is a bear and a bee. Page 3 On page three, there is a cat and a cup. On the page of the fourth page there is a dog and a dolphin. On page five, there is an eagle and an egg. Page 6 On page six, there is a frog and a fish. Page 7 On page seven, there's a guitar and a goat. Page 8 On the eight pages there is a harp and a horse. Page 9 On page 9, there is an igloo and an island. Page 10 On the tenth page there is a jug and a jewel. Page 11 On page 11, there is a key and a kite. Page 12 On the twelfth page there is a lamp and a lion. Page 13 On the thirteenth page there is a monkey and a sponge. Page 14 On the fourteenth page there is a nose and a net. On page 15, there's an owl and an octopus. On page 16, there's a penguin and a pig. Page 17 On the seventeenth page there is a queen and a kvil. Page 18 On the eighteenth page there is a robot and a rabbit. Page 19 On the nineteenth page there is a sock and a snowman. Page 20 On page 20, there's a tiger and a tooth. Page 21 On the twenty-first page there is a unicorn and an umbrella. Page 22 On page 22, there is a violin and a volcano. Page 23 On the twenty-third page there is a watermelon and a whale. On page 24, there's an X-ray and a x-ray. Page 25 On the twenty-fifth page there is yarn and yo-yo. Page 26 On the twenty-sixth page there is a zipper and a zebra. These worksheets work well as a letter of homework week too. Get this for free here – >Letters of the alphabet Other fun alphabet resources from the store: More alphabet and early literacy Resources from the blog: Alphabet Imam, Who Has Letters Mazes Cards - Practice Alphabet Point on ABC to dot worksheets fill out the missing letter Easy reading and color Reading Understanding in the picture book genre, there are some sub-genres and will cover some of them in the next few days. First, the ABC books. write good books for abc book books. If you want to write an ABC book, you should first read Chicka Chicka Boom Boom, taxiing history with the alphabet chasing around and having fun. This is a great example of what you can do with these letters if you want. CURRENT ALPHABET PICTURE BOOKS But usually, people think of an ABC book about a particular topic, as Dori Butler's F is about a firefigt book. This type of ABC book uses the alphabet as a way to discuss different aspects of a topic, almost as a way of organizing a non-fiction theme. Remember that your audience is preschool to second grade, or age 3-7 years. Look for topics that will interest them, or can be used in classrooms to introduce a theme. To write such an up-to-date book, you must first apply the QXZ test. Typically, Q, X and Z are hard to fill out letters for your subject. Not fair adherence X in the middle of the word: enthusiasts. It's not fair to use the Queen for every single topic. Words must be natural, not forced, and be entirely more topical. Actually, it's not just the QXZ test. For any given topic, this can be easy letters, but there will be a letter that is difficult to find a suitable keyword. Before you get to the exact text too far, think about the keywords for each letter. If you find a theme and have great keywords for each letter, then it's time to play with the language. Again – look at Chicka Chica Boom Boom as an example of how far you can push it. ALPHABET PICTURE BOOKS MARKET ABC books are hard. The market is bitten with them and to stand out in today's crowded market your manuscript really needs to shine. It is a little easier for illustrators who use the ABI as a car for their works of art. But for everyone, competition is stiff, but not impossible. Most publishers will have one or two ABC picture books a year; Sleeping Bear Press and Pelican Books both have a series of ABC books that you can explore and see if you can write something to fit. (Be sure to check these shipping guidelines for a publisher before writing something specifically aimed at them. ACTION POINTS Read a selection of ABC picture books, both current and storyline. Find information about multiple publishers who may publish an ABC picture book. The 30-day series about stronger Picture Book is collected in a fiction book. Available on © 1996-2014, Amazon.com, Inc. or its affiliates Another masterclass book maker by librarian Karin Hallett. Looking at the theme of the community, my students in 1st grade wrote and made an ABC book in which every letter in the alphabet refers to a noun for our Encouraging students to explore our school in this way as well as self-expression. We ended up having six 40-minute sessions practicing writing, finding a noun, and developing fluidity with camera apps and iPad book maker. Exploring a new genre: what are the features of an ABC book? To get started, my students in 1st grade explored two ABC sample texts: Israel ABC: A Book about the People and Places of Israel by Holly Schroeder and Claudia Wolf and S is about Sunshine: A Florida Alphabet by Carol Crane. In the ABC book or alphabetical directory, the genre presents the letters of the alphabet with the corresponding text and images. In the examples above, they are used to categorize information about specific topics (Israel and Florida). As we created a book that emphasized our school, we then identified all the things that make our school unique and important. Then I divided the class into pairs. Using an organizer, students discussed with their partner key concepts for our school in the form of a noun for each letter of the alphabet. Since some of the key concepts were much harder to understand than others, we came together as a group, entered all the nouns into one master organizer in Google Docs, and glued to missing letters. We were able to compare most letters with a few nouns. For example, students offered books, blogs and backpacks for the letter B. For other letters, it was harder to find a good match. Since we are a Jewish day school where students divide their school day between general and Jewish studies, one component of learning Hebrew is the acquisition of Hebrew. Fortunately for us, it gave us the opportunity to include the Hebrew noun in our ABC book. Writing skills: What are the facts about my subject? The next step was to write the text to provide facts about our school. How do we define these concepts that we have imagined? Putting coherent thoughts into words and then those words in informative sentences was a challenge for some. Each student was assigned an accidental letter, chose one of our nouns that corresponded to their letter, and then drew up the description with the help of a written organizer. Visual literacy skills: What is a quality image? For our ABC book, we needed quality photos from our school. Armed with our school iPads, students have taken

photos using the Camera app of whatever contributed to the ABC book. This seems simple enough for us adults, but these six-year-olds need to take the time to think critically about the subject of their photos (what image describes my key concept?). Interesting and sharp compositions of the image. Select the best image from multiple images taken. Technology skills: What does a quality page look like? For each letter from the ABC book, students have created a separate page in the Book Creation app for the iPad. I've been using this app for use with my students for the past two years and it's one of my favorite technologies in the classroom. Students took out their selected images in the app, wrote them pre-written texts, and audio recorded themselves reading the texts. The final design regarding the font style and the choice of colors were next to them. 9 Design tips to give your book a professional finale Finally, students shared all the completed pages like ePub files with me by email. I opened the shared files in Book Creator on my iPad, combined all the final images in our ABC Book, and then exported the book as a video (see below). We decided to share this book on iTunes as well and published the book for anyone to download for free. Download MJGDS ABC: A Book about Our Jewish Time School from the iBooks store
