Below I highlighted all the main features you will get with this modified version of the Clash Royale game. Read all the features so you can grab more information about the game. Unlimited Gems The most valuable thing in Clash Royale are Gems, which are used to unlock premium game items and increase the speed of chest upgrades. As we know, when we start playing the game, then we are rewarded with 100 gems by the official gaming community. But in this hacked version of Clash Royale, you'll get unlimited gems to help you unlock all the premium items you want and you can also upgrade all your defenses and troops to the maximum level. Unlimited gold One of the most necessary resources of this game is gold that is useful for upgrading premium cards, buying cards from the store section, creating your own clan to build a new community with other players. We can earn gold by winning opposing players and we can also buy from gems, but it takes a lot of effort. So, in Clash Royale Mod Apk, you'll get unlimited gold that you can use anywhere. There is no limit to holding gold resources, which means you have the capacity to hold unlimited gold. Max Level Troops troops are the most important part of clash royale that plays an important role to win any fight against our opponent. In the initial phase of the game, we have less powerful army troops on our base that we continuously need to upgrade. There are many limitations as we upgrade any unit as we should fit the King Tower level criteria and many other things. But in this modded version of the game we shared in this post, you will get all the maximum troop levels in your military camp. Max King Tower Level This is my favorite feature clash royale apk mod. We need to do many things to increase our level of king tower which takes a lot of time and effort. King Tower is the backbone of our base, and you have to guard it from the enemy if it's destroyed then you lose that game right away. The more powerful the royal tower, the better chance you have of winning the battle. So in this completely modified version of clash royale, you'll get a Max King Tower level that also increases the level of the player tower. Unlocked legendary maps Legendary Maps are the best way to win any fight against a powerful opponent. With the help of this, you can surprise the enemy with your attacks and you can easily defeat them. There are many legendary cards such as Lava Hound, Miner, Magic Archer, Mega Knight, and many more that we have to buy from royale chests. But since Version of Conflict Royale, you can open Royale's chest indefinitely and win a guaranteed Legendary Card each time without paying a penny.
