## Ipod nano bluetooth dongle

-- 1 2 3 ... 20 Next -- See help section or call us EAN: 0702411269266 Features: Crystal Transparent Stereo Audio Signal Transmission to any Bluetooth receiving device, such as Bluetooth phone, Bluetooth speaker or Bluetooth music receiver, 30pin plugins, compatibility: for iPod Touch (3, 4), iPod Nano (1, 2, 3, 4, 5, 6), iPod Video, iPod Mini, etc. Support profile: A2DP (Advanced Audio Distribution Profile) & ARVCP (Audio/Video Remote Control Profile). The need to set up and any software, not very easy to use. No battery is required, fed by your device. Press no confusing buttons! Can be paired automatically. Pair it once and it will always remember your device. Small & discreet; Easy to carry around with you. Note: It works on Apple products with 30pin plug-ins, but it doesn't support for the iPod Touch 2nd and iPod Touch 1st. How to use: Just put the adapter on the 30pin connection on your iPod and pair with a Bluetooth device, or Bluetooth headphones or Bluetooth speaker (Bluetooth transmitter light will blink when it's ready to pair). Specifications: Color: Black Bluetooth: Bluetooth 2.1 Frequency Range: 2.42-2.480GHz (SIM Card) Spectrum Range: Up to 10m/33ft Workf stream: Max 40MA Item size: 39\*29\*8mm/1.5\*1.1\*0.3in Item weight: 39\*8mm/1.1 \* 0.3in Item weight: 6g/0.2oz Pack Size: 13.5\*10.5\*1.5cm/5.3\*4.1\*0.6in Pack Weight: 20g/0.7oz Package List: 1 x Bluetooth Transmitter Support Communities/iPod/iPod Nano appears to have no while answered. To start the conversation again, simply ask a new question. Q: Is there a Bluetooth adapter for the iPod Nano 5 g? I have a iPod nano 5th generation, that does not have bluetooth capabilities. I would like to find a Bluetooth adapter that can connect to the iPod, so that I can use it with a large blue wireless speaker party, and Bluetooth may appreciate my iPhone 5s. iPod nano Posted on Sep 17, 2015 1:05 PM Reply I have this question too (339) I have this question too Me too (339) Me too Answer: A: Answer: A: deggie.You may have solved my problem. It looks good and I'll probably buy it. If I do, I will mention on this site how it has been implemented. Posted on July 21, 2014 6:48 PM My Answer To This Question Too (1258) I Have My Too Much Question (1258) I Too July 24, 2014 12:24 PM In response to mark7198 Nano iPod (7th Generation) and iPod Touch Bluetooth. Hitting and classic doesn't. Jul 24, 2014 12:24 PM Page content loaded Jul 24, 2014 12:22 PM in response to mark7198 In response to mark7198 Hi mark7198,Some iPods have bluetooth and others do not. You can get the specifications of different iPod models by looking at them on the iPod support page - iPod - iPad Support for example if you want to know about the touch of the iPod, go to that page, select the iPod Touch, click on the technology specification link, select the model you want to know about and search for Bluetooth on the resulting page. Thanks for using Apple support communities.
