Photive provides the ultimate experience in sound, power, and protection. Shows 1-10 of the 16 answers Just turn on the speaker. In your phone or tablet get into bluetooth, turn on and search for the device. It will be under ph-BT1000 speakers. Once you pair them, they will be paired forever, just turn on the speakers and have your bluetooth and it will connect on their own every time. So far I have been able to pair up with every device in my house, I also have a battery icon working on my rooted nexus 7. dleese · August 17, 2013 3 out of 6 found this helpful. Are you? | Report abuse How do I pair my new Bluetooth Mobile Cyren PH-BT1000 speakers with my new I Phone 8? thank you. George Owens · June 1st, 2019 Did you find this helpful? | Report abuse Once you turn on the cyren, it enters pairing mode automatically. You need to see a LED flyer from blue to red. Make sure your phone has Bluetooth and search. It paired it with my iPhone 5 by going to Bluetooth settings. David Tovar · August 16, 2013 1 out of 3 found this helpful. Are you? | Report windows abuse 10 are looking for code to pair John Juza · January 26, 2018 Did you find this helpful? | Report my abuse using HTC with WindowsPhone8. Turn on the phone Bluetooth. Turn on CYREN. Searches are automatic - blue light lets you know to be installed (such as a phone screen). Keep the volume most on the phone. Then use the CYREN volume to tweak. lance · August 22, 2013 1 out of 2 found this helpful. Are you? | Report my abuse on an iOS device but I just turn it on, it shows, and then from within settings, bluetooth, the menu of devices I select and pair. I'd say time with me has turned it on and had a hard time pairing, just to realize it's plugged into different devices. Just turn off the different device correcting it. Doug b · August 17, 2013 2 out of 3 found this helpful. Are you? | Report abuse when you turn it blue to red. Have your phone in discovery mode and they'll pair it. They connect quickly after the initial pair. JandCKay · August 16, 2013 1 out of 2 found this helpful. Are you? | Report abuse When I turn on the loudspeaker, I go on Bluetooth on my phone and it's there ready to connect. It varies depending on the device. Jack Bayless · August 16, 2013 1 out of 2 found this helpful. Are you? | Report abuse How to pair with alexa tb · December 26th, 2018 Did you find this helpful? | Report abuse What code to install this speaker, I don't have a Christina G command manual. · June 27, 2015 0 of 1 found this helpful.
