Alle ansehen Learn more about how to engage Houses for rent & Sold near this school The school is rated above average in school quality compared to other schools in Colorado. Students here make above-average academic improvements from year to year, and students perform above average on state tests. Students at these schools are making more academic progress given where they were last year, compared to similar students in the state. Strong progress with high test scores means students have strong academic skills and schools are a better job at supporting academic growth than most other schools. Parents' tip test scores at the school are above the state average. Because test scores in some states are so low, some students at these schools may still not be performing at grade level Parents tip Notice something missing or confusing? Posted June 20, 2019 Submitted by other fields of academia, support for learning disabilities, school culture, and safety – they get poor ratings. Posted 02 November 2017 Submitted by parents We love this school! In a district with school choice, we are pleased and proud to choose Soaring Hawk. Posted July 26, 2017 Submitted by parents We have nothing but negative experiences at this school. My children have experienced setbacks in their learning abilities since we have been here. Staff were not involved with the parents when the situation occurred. It took me several years to express concern about my children's academics and their struggle to get the right help needed to help them thrive in this school. I would be grateful to have them in different districts. Posted February 23, 2017 Submitted by parents My kids love school in and the teachers really seem to care about their children. The new (newer) principal (Neville) is very engaged and participatory. The way I see it, you'll come out of school what you put into it. So many parents take their children to local charter schools and I just don't understand why personally. It is in my opinion that soaring hawk is school - but I can only base this on my own experience. Posted June 01, 2016 Submitted by parents We have four children who have attended or are currently attending Soaring Hawk. We couldn't be happier with every experience of our children. Great teacher and amazing leadership team. Posted June 8, 2015 Submitted by another son We were present for a year and a half and thrived at this school. They went above and beyond to make sure she was learning and her needs were being addressed. Both the kindergarten teacher and her first grade were attentive and very communicative when it came to telling us how she was making progress. Posted January 23, 2014 Submitted by parents My daughter started kindergarten a full day last fall and I have nothing but nice things to say about SHE. We were a bit wary of having our son go to our neighborhood school. You have to send it to charter schools constantly buzzing in our ears. However, we are very pleased with our decision to send it to SHE. He thrives in this positive environment. The teacher was amazing and heeded our concerns. I can't believe how much she has learned in just 6 months that she was at school. He reads and does basic math. I didn't expect him to learn this much. She is also friends and loves socialization. Parents at the school seem to be very interested and involved as well. I would definitely recommend this neighborhood school without hesitation! Posted August 14, 2013 Submitted by parents My kids have been attending Soaring Hawk for 3 years now. I'm also worried about the emphasis on testing. When your child finishes the test they have to put their head down and do nothing (like the rules the teacher gave me) that seems a little harsh to me. I also agree with other parents who have mentioned class sizes. These classes are great and if you can find a school with a smaller class size then you are better off. There are some teachers who stand out. They are excellent teachers and are great at making classrooms feel like a safe and happy environment. Unfortunately when you have a teacher who doesn't want anyone and your child is stuck with them, then the Principal won't let you divert your child to a class that will be healthier for your child. Principle told me directly that she trusts teachers over students so if your child has never had a problem with any teacher before and has no problems at home and then suddenly there is a problem, then they will assume your child is lying. I gave this school 1 star mainly because of that attitude. It worries me that he doesn't or care about children. Posted August 09, 2013 Submitted by my Daughter's parents went here for 3 years and until I realized how lacking their curriculum was. My son went here and another school for kindergarten. By comparison, SHE SHE LESS in educating students. I was very disappointed because I wish I knew and researched faster. \*School data is provided by the National Center for Education Statistics, Pitney Bowes, and GreatSchools.
