Acer 8 inch tab

Acer today in New York announced the Iconia A1 tablet, a 7.9-inch effort it says is aimed at modern-day explorers, adventurers, digital enthusiasts and mobile executives requiring an all-day mobile companion. So, uh, yes. Iconia A1 has an IPS display, but goes the other way than most Android tablets, which is a 4:3 aspect ratio. We'll have to see if it spends a resolution of 1024x768 that puts it (at least on paper) a little below the 7-inch, 1280x800 Nexus 7. It's also got a quad-core tablet of unknown origin running at 1.2GHz, a 5MP rear camera, GPS, Bluetooth and other bells and whistles you'd expect. The Iconia A1 comes in 8- or 16-gigabyte flavors, with the latter running \$169 and hitting stores in June. Sleek design, slim size is ideal for disposable use quad-core processors for faster media performance Vibrant images on a 7.9-inch LED backlit display with IPS technology and a 5MP Camera Great all day companion with 7-hour battery life (1) perfect for modern day explorers, adventurers, digital enthusiasts and bustling mobile executives NEW YORK (May 3, 2012) Acer today unveiled the Aceria Iconia A1. The company is the first full-featured 7.9-inch tablet aimed at modern day explorers, adventurers, digital freaks and mobile executives requiring an all-day mobile companion. The sleek and lightweight design, which is conveniently held in one hand, also makes it easy to fit in your purse or bag. The new Acer Iconia A1 keeps people entertained and connected with smooth and fast navigation, viewing and media playback powered by a fast quad-core processor. The Acer Iconia A1 was introduced today with other new products including the Acer Aspire R7, Acer Aspire P3 Ultrabook and Aspire V series touch laptops. Acer's new line of mobile products highlights the company's focus on redefining the computing experience through progressive design. AcerTouch. Tablets are becoming prized companions for many people because they stay connected and have fun throughout the day, said Sumit Agnihotry, Vice President of Product Marketing, Acer America. We want everyone to experience it. Everything that makes tablets so enjoyable is even better on the perfectly-sized Acer Iconia A1. The design is comfortable to hold, while the sleek build makes it a natural extension for anyone who wants to keep their digital life right at their fingertips. Highly responsive Fun Busy mobile users get the fast performance they want with smooth video playback, and smooth and fast navigation through applications and websites powered by a fast MediaTek Quad Core 1.2GHz processor. Gestures, zoom, pan, and navigation are intuitive, and games are responsive, realistic, and even more fun with an integrated gyroscope for motion and vibration reactions. LED-backlit IPS display with 170-degree viewing angle highlights videos, photos, and multimedia content with precise colors and brightness. 1024x768 makes text and graphics crisp and clear, while the 4:3 aspect ratio is great for web browsing and electronic reading, as well as gaming. Acer's new Touch WakeApp® gives customers one-touch express access to their favorite apps right after waking up from sleep. Iconia A1 provides Google's experience with services like Google Now, Google Search, Gmail, YouTube, and great content such as magazines, movies, games, books and over 700,000 apps from the Google Play Store. Easy to take Everywhere stay connected From for just £0.90 and measuring just 0.44 inches thin, customers will also enjoy taking it with them for navigation and location-based applications via built-in GPS. Acer Iconia A1 keeps consumers connected to Wi-Fi networks and hotspots with reliable 802.11b/g/n wireless technology. In addition, integrated Bluetooth 4.0 allows consumers to quickly connect a tablet to a variety of other devices, such as headphones and printers. Digital Hub Rear Camera with 5MP Promer captures 1080p video at 30 fps that can be easily edited for quick sharing on the go. The front camera pairs with an improved microphone to clearly capture video and audio for video chats and recording. The micro USB 2.0 and microHDMI ports allow you to quickly transfer or share customer photos, music, videos, and other digital content. Available as an 8GB or 16GB (2) version with the ability to add additional 32GB (2) via microSD, Iconia A1 is the perfect digital companion for people who are constantly up and about. The pricing and availability of the Iconia A1-810 with a capacity of 16 GB will be available in June at the manufacturer's recommended retail price of \$199.99 USD. Acer today announced a new budget Android tablet: Acer Iconia One 7. The tablet is expected in the United States and Canada this May at a low price of \$130. Iconia One 7 isn't the only Android tablet that Acer is announced today — there's also iconia tab 7, which brings mobile radio and the ability to make calls to a tablet. Because if we want one thing from our 7-inch tablets, it's keeping them near our faces. At \$129.99 you can't expect much from iconia one 7, and you won't get much either. Running Android 4.2 Jelly Bean out of the box with the promised upgrade eventually Android 4.4 KitKat. It is displayed on a 7-inch 1280x800 IPS display, which is what you should expect at this price point. Acer promises up to 7 hours of battery life if you watch video on iconia one 7 with its stereo speakers, although it gives no indication of regular battery life. They give an indication of the colors that will come, however: red, white, black, blue and pink. It will also measure in 8.9mm thick. Acer Iconia Tab 7 is quite similar to the device, although in this case can call the same. It's just as powerful, has the same screen and slightly shorter battery life. The addition comes in the form of a 3G radio - not LTE here, sorry. Iconia Tab 7 is filming for availability in Europe, Asia and the Middle East at €149, and Latin America by the end of June for an MX of \$1,990. Acer Iconia One 7 Press Release: NEW YORK (April 29, 2014) Acer today unveiled the Acer Iconia One 7 at its Touch More Connected launch event in New York. The incredibly portable 7-inch Intel® dual-core tablet is the perfect device for anyone who wants to enjoy mobile entertainment on a stylish, multi-colored device. The affordable price is even more compelling for families and anyone on a budget. From the beginning, Acer's mission was to break down barriers between people and technology and make the latest technology accessible to all people, said Maverick Shih, president of BYOC Acer and Tablet Business Group. The new Iconia One 7 is a great example of how we continue this legacy by offering mobile devices with great functionality, unique design and outstanding value. Congratulations to Acer on providing intel atom-powered Acer Iconia One 7 launch. It offers outstanding gaming and entertainment performance, long battery life and a sleek form factor, said Hermann Eul, Vice President and CEO of Intel Mobile and Communications Group. We look forward to continuing our close work with Acer to bring to market additional innovative mobile devices that meet the ever-increasing demands of today's consumers. Smooth motion and true visuals Games and video run smoothly on the Acer Iconia One 7 thanks to intel® Atom™ Z2560 processor. The 7-inch LED-backlit display has a resolution of 1280x800 HD and IPS(1) technology, ensuring that games, websites, e-books, and all visuals are clear and vivid. The 4:10 p.m. display is the ideal format for video, and users can enjoy up to 7 hours(3) of battery life when viewing 720p video. Powered by Android 4.2 (Jelly Bean), expandable to Android 4.4 (KitKat). The design to be seen by Acer Iconia One 7 comes in a wide range of gorgeous color options (2) to suit any lifestyle, including, but not limited to, red, white, black, blue and pink. The rear case features a sophisticated textured pattern that gives it a unique look while providing anti-slip properties for a comfortable and reliable grip. The thin profile of Iconia One 7 not only makes it stylish, but also easy to use on-the-go with one hand. It measures just 8.9mm (0.35 inches) thin and is a lightweight mobile companion that's fun to use and share. Iconia One 7 also features front and rear cameras to capture all the most important moments, two speakers for clearer sound and a MicroSD™ card slot that allows enhanced storage easy sharing. To further expand storage, users can use AcerCloud™ to enjoy seamless sharing of videos, photos, music, and documents across multiple devices. Prices and availability of the Acer Iconia One 7 will be available in pan American markets at the end of June with prices starting at US\$129.99; in the EMEA markets in mid-May, with prices starting at EUR 139. To learn more about availability, product specifications, and prices in specific markets, please contact your nearest Acer office or reseller via www.acer.com. Acer Iconia Tab 7 Press Release: NEW YORK (April 29, 2014) Acer today unveiled the Acer Iconia Tab 7 (1) at its Touch More Connected launch event in New York. Iconia Tab 7 features a phone feature and 3G connectivity, and is a marriage of two of the most popular consumer devices — tablet and phone — together in a super portable, premium design with a live 7-inch screen. Users can use 3G to browse, keep in touch, stay up to date on news, events, and social networks, as well as enjoy voice calls. Slim design with premium design and Acer Iconia Tab 7 slim feel has a premium look and feel with a clean, simple sculpted silver design. The 0.89cm (0.35in) thin body, narrow 11.6cm (4.6in) width and light 298g (0.66lb) weight makes the Iconia Tab 7 very convenient to hold and use with one hand for phone calls and viewing, but it's big enough to read text and enjoy video. Immersive media performance and viewing Available with two screen options (1), the vibrant 7-inch screen delivers crisp HD up to 1280x800 visuals and IPS(2) technology for crisp, truly vivid colors from wide viewing angles. Additionally, customers can do even more with their Iconia Tab 7 thanks to their powerful quad-core processor. Dual cameras ensure that users can capture all the highlights and are equipped with Android 4.4 (KitKat) and battery life of up to 6 hours (3). Tap, swipe, and pinch with fewer fingerprints With all those taps, swipes, and pinches, the screens can get dirty quickly, but not with iconia tab 7. Equipped with an anti-fingerprint coating, messy fingerprints and smewers are reduced while it is much easier to clean. Iconia Tab 7 features a MicroSD™ card slot for enhanced storage and easy sharing. To further expand storage, users can use AcerCloud™ (4) to enjoy seamless sharing of videos, photos, music, and documents across multiple devices. Prices and availability of the Acer Iconia Tab 7 will be available in Latin American markets at the end of June with prices starting at \$1,990 MX Peso; in the EMEA in mid-May with prices starting at € 149 for the version with HD IPS To learn more about availability, product specifications, and prices in specific markets, contact your nearest Acer office or away www.acer.com. www.acer.com.
