All features, characters and levels are open and you can play it freely! The online version is available for both - desktop computers and your mobile devices, so state tuned wherever you are and enjoy five horrible nights with animatronics! No restrictions! The idea of the game is pretty simple. This is a point-to-click horror where you are in a locked room without a chance to leave it until five nights pass. You are a watchman and the problem is that the pizzeria is very disturbed when night falls on. The local animatronics will be nice and fun on day time, but they become monstrous killers after the night comes. You will need to keep them away from the room you are sitting in by locking the entrances in the correct order. Make sure you predict their movements carefully and close doors and ventilation when you suggest that the monster is going to use it. Be careful and attentive! This website uses cookies to ensure that you get the best experience on our website. Learn more The security of the famous pizzeria has been compromised! The spirit of the Purple Murderer who was behind the creation of the evil animations has found its way into a young girl and now wants to complete the mission of her life with his hands by staining them with blood. Since the production of animatronics has been closed, there is no way to do more of evil dolls directly. And while they can no longer come from the manufacturing line, there is a way to turn ordinary people into animatronics by putting the chip inside their heads! To achieve that, the Purple Killer will use the body of Vanessa dressed as a white rabbit. She needs to find suitable victims who can rebuild the range of walking toys. The best candidates for it are a bunch of kids who are now visiting the opening of a new pizza place. Will you be able to survive in the coming massacre and perhaps even prevent the terrible tragedy? Play FNAF 9, stay alive until dawn and make sure you don't end up in an animatronic skin! Five Nights at Freddy's, a point click survival horror game where you work as a security guard at night at Freddy Fazbear's Pizza. Your main task is to look for robot creatures called animatronics. To see their every move, you will need to use cameras that will show you each room. You have to remember where animatronics are to find their movements. First night will be calm, allowing you to explore controls and get to know your job as a security guard much better off. After the first night things get creepy, creepy and scary because you will see that animatronics are moving and they will go to your room to kill you with, you as a security guard need to prevent it. Every night shift you will start at 12 pm and you must Until 6am, right and on the left side of your room you will see doors that you can open and close, you can also turn on and on the light if you want to scare animatronics that are close to your door. You have to hold on to your mind that the moment you close the door on the right or left side your battery will lose energy, that's why you can't keep the doors closed too much because you will lose energy quickly and if you do, animatronics will come in and scare you to death! Light is also consuming power in your dough, so you'll need them to keep your battery running. Only when you look at the camera that some of the animatronics are close to your security room, only then recommended turning on the light or closing the door for a few seconds to stop them getting in You have to survive 5 nights and every night will be harder and scarier for you to survive than in the past because animatronics will move much faster with each passing night making you very difficult to track them down on cameras So there will also be panic, be ready for it and scary jump scares that will make your heart pump much faster! Animatronics who will try to get you are Freddy Fazbear, Bonnie, Chica, Foxy and Golden Freddy. all of them will try to reach your security room and you need to prevent it. Survive 5 nights in this horrible, scary and dark place and you will win the game, but be sure that this task will not be easy. Plots for five nights on Freddy's Fnaf After the story of Five Nights at Freddy's and you as the protagonist, whose name will later be revealed to be Mike Schmidt, have started a job working as a night watch security guard at the restaurant Freddy Fazbear's Pizza. A voicemail message left by Mike's predecessor, you will hear every night if you survive of course, but this character will be killed off in the 4th night and then you will learn about the history of this dark and mysterious restaurant. The guy talking to you will tell you that you don't have to worry about anything given your job, but it won't be true. You will learn that robot creatures used at the restaurant, Freddy Fazbear, Bonnie bunny, Chica chicken and the disused Foxy The Pirate Fox, are able to move and walk around at night. The animatronics were not allowed to walk freely during the day due to the incident referred to as the Bite of '87, which apparently involved the loss of a person's life. The employee warns Mike that if one of the robot's approach to close to a human, they will automatically assume that it is an endoskeleton that is not in costume yet, and they will forcefully cram them into an extra mechanical Freddy Fazbear costume, killing the person in this process. That's why you die in this FNAF horror game when you see a jumping scare of some of the animatronics they devour your body! Save battery In Five Nights on Freddy's Game Five Nights At Freddy's is the first part of the FNAF franchise, and here you'll meet the most popular animatronics, you'll learn about the dark secrets that this place keeps while working as a security guard. This online FNAF horror survival game will give you chills, so get ready for terror, fear, horror and scary moments! The voice from the machine at the beginning of this unblocked FNAF game will explain to you the basics of your job and he will tell you about animatronics, but he will not tell you everything, so don't expect easy jobs. When you start with work, on the left and right sides of your security room will be doors with red and white button, clicking the red button will open and close the doors and clicking the white button will turn on and off the lights. In the upper right corner of the screen you will see what time it is and what night. You start at 12 pm and you finish your watch at 6 AM. At the bottom of the screen you will see the amount of power left in the battery, so try not to use all battery power before the night ends. You will also have the opportunity to see a camera. You will have 11 cameras that you need to monitor, which means 11 rooms where animatronics can hide, you need to see them all, but you need to pay special attention to the camera: 2A, 2B, 4A and 4B, because these cameras are connected to your room and if you see animatronics there, close the doors or turn on the lights to chase them away from your room. Five Nights At Freddy's is the first chapter in a mysterious story, and you're on an adventure to discover it all! Fnaf Unblocked Surviving Scary Nights Every night you will learn something new about this dark scary restaurant and history will continue to evolve and you will eventually discover what really happened in this place, but to get the full story and to solve this mystery you must survive by stopping robot creatures, animatronics to reach your room and scare you to death! If you ask yourself how will you know if you made a mistake, or if the animatronic is close to you, you will find that in an unpleasant way, you will be jumping afraid of one of the animatronics, if you allow them to enter your security room, it will mean that you have lost and you will start over. Every next night for five nights at Freddy's will be a new challenge for you, each will be scarier than before and more intense, so get ready for some really scary and weird things that will happen to you in this restaurant. Watching the cameras is the key to surviving this FNAF online horror game, and if you think you have what it takes to survive this horror, prove it!
