You may be able to find more information about this and similar content piano.io Lauren, Andrea, Nicole, Danielle, and Diana Outgoing Lauren brought this fab five together. Some know him from childhood, others with work, but they've all become inseparable thanks to their weekly night (think yoga, or drink dive bar). Just one rule: No guys allowed! From left: Flirty, but not too frilly, the Marshalls V-neck (\$40, available in Marshalls) ruches at the waist and then flares into a flower trimmed, hip-balancing hem. Perfectly positioned, the peekaboo lace on Long Tall Sally's vagina (\$95, longtallsally.com) reveals no rough. This bare-on-top beauty (\$320, sherrihill.com) camouflage your lower side with a cascade of flattering flounces. The Elegant LBD LBD Update (\$89, cableandgauge.com) includes portrait-style necklines and lace inserts. Summon your inner flapper in this sequin-scattered, semi-sheer David's Wedding stunner (\$149, daidsbridal.com). From left: Lauren O'Leary, 29, vice president, PR firm; Andrea Halperin, 33, CEO, PR firm; Nicole Moss McQueen, 29, investment banker; Danielle Gregan, 30, yoga instructor; Diana Sfera, 28, vice president, PR firm Classic Little Black Dress – aka LBD – is a staple piece that every woman should have in her closet. Sydne Summer of ThinkThruFashion.com offers easy-to-follow tips on how to wear your LBD on various occasions. Step-by-step: 1. Bring to life: Use the color by adding a pair of colored jackets or elegant pumps. 2. Make a statement: Use a notification necklace to spruce up the LBD. Add a sparkly necklace for the night look. 3. Flower power: channel a little whim by adding a bright floral pin to your dress. 4. Belt it: use different belts to reflect your mood. 5. Jean Genie: Layer on a jean jacket for a bit of extra warmth and style. Tip: Try wearing an A-line LBD because it is flattering almost every body type in a little black dress or make it casual – will lend even more versatility to your wardrobe. LBD is a bit like an empty canvas. You can accessorize, add details, switch your jewelry and layer it in a unique way, all allowing you to wear that one staple dress in many ways. Whether you own one LBD or 10, don't be afraid to get creative with your style. We pulled pictures from the red carpet and the stars of our favorite fashion week street style to inspire you to make the most of this wardrobe essential. Getty Images/Jeffrey Mayer There is a very good reason that head-to-toe black is favored by fashion insiders, editors, buyers, and models: It's chic! Here, Elsa Pataky shows off how to wear head-to-toe black in a sophisticated, youthful way. Her sleeveless mini dress has a little line skirt, but with the addition of a belt and some glittering details, her look is anything but basic. To keep it sleek, she paired the dress with classic pointed toe black pumps, which gives her overall look a timeless appeal, such as a modern take on Holly Golightly. Getty Images/Michael Tran, Stephen Lovekin Little black dress is not basic! Here, Diane Kruger and Gigi Hadid show how beautiful details like lace, necklines, sheer panels and strappy necklines can turn a little black dress into a serious statement. Getty Images/Kirstin Sinclair Let your outerwear do the talking, and try wearing a statement coat with your small black dress. This classic sleeveless dress with a feminine skirt gets a bit punk and a little ballerina when you layer it with a fluffy pink coat and white pumps. Model Taylor Hill leather jacket and black dress. Getty Images/Robert Camau An easy way to make your cocktail dress a little edgier is by adding a leather jacket. We love how Taylor Hill is still, the moto jacket gives her a mini dress and barely-there sandals for a little tough girl appeal. Getty Images/Nelson Barnard Want your legs to look miles long? Wear nude shoes with her small black dress, as Emma Stone did here. Adding a hidden platform and pointed finger, these pumps make her legs look even longer. This is a great trick to keep in mind weddings and special events where you can rock bare feet and you know you will be having your photo taken. Getty Images/Mark Robert Milian When the winter news, a pair of black tights is the woman's best friend. We love the streamlined look of a pair of black tights worn with your favorite little black dress at this time of year. This more subtle look is perfect for holiday parties and offices – and can be equally dressed up or down for day and night. Getty Images/James Devaney, Bauer-Griffin If You Have - Whether they're out of a baby bump or just a good gene – they always look amazing in a fitted black dress: Take a leaf from Kim Kardashian West and Chrissy Teigen's book and look for a little black dress made of stretch cotton or knitted fabric. If it feels too mounted, slip across the spank on the bottom for a bit more coating and leveling. Getty Images/Merilyn Smith limits just what sets the little black dress has become more and more widespread as fashion itself has become more inclusive. A shiny midi dress like this is still very much an LBD in our book – just an unusual and unique one. We love this combination of bold necklines and pleated skirts, because it is in equal parts sassy and exquisite. Dakota Johnson/Robino Salvatore The answer to how to dress up your small black dress is not that easy – there are many ways you can do this with accessories, shoes and your hair. However, sometimes the easiest solution is to have a dress that is only in essence dress - as a satin, strapless style cocktail dress with a full skirt. Since it doesn't come close to skimming the ground, we think it still counts as an LBD – just a very glam one! Getty Images/Kirstin Sinclair. Jeffrey Mayer Little black lace dresses are probably our favorite take on this iconic rock. Lace adds an element of femininity and whim, which we love. There are many ways you can dress in lace dress up (like Diane Kruger in a tuxedo jacket and lace-up heels) or down (with a mini crossbody bag and shades, right). Getty Images/James Devaney Just because the idea of a little black dress is around forever doesn't mean you can't feel fresh. We love Margot Robbie's cold shoulder dress above, which also has dramatic ruffles and pleated sleeves. A dress like this might look garish, wild or a bit crazy in another color, but in black, it is intricate and cool. Look for black dresses in silhouettes you usually can't try or with information that will really pop – and suddenly your LBD is the most stylishly unusual thing in your wardrobe. Getty Images/Jason Meritt Take a cue from Nicole Kidman and add a little black dress with long sleeves to your rotation. Not only is this a great choice if you want to be a little more on, but it's also an incredibly complex look. Getty Images/Pierre Suu Leggy model Karlie Kloss knows the perfect formula for dressing down in a little black dress. Her knit dress with a zipper in front of her is already casual, so she embraced this casual look by connecting it with white slippers, a backpack and aviator sunglasses. This is the kind of outfit that is perfect for errands for a Saturday or lunch with your girlfriend any day of the week. Getty Images/Timur Emek, Melodie Jeng, Kirstin Sinclair Best for being a fashion woman? there are no style rules Not the ones you can't break, anyway. The little black dress has always been a symbol of grace, elegance and simplicity. This is the dress you turn in, if you have nothing else to wear, it's one that never lets you down. That's not all it is, though. Remember all this empty canvas thing? Don't be afraid to put your own, very personal spin on a little black dress. Wear tulle on your shoulders. Wear a dress over a button-down shirt. Dress your favorite cotton dress way down with a leather jacket and beat-up sneakers. Sneakers.
