Honda FG100 and FG110 are very popular units that have earned American gardeners perfection. The four-stroke simple is quiet, smooth, very easy to start with and generates a fraction of the smoke comparable to the 2 stroke engines. Honda's mini four strokes can be used at any speed for an extended period of time without the risk of overheating or engine carbon buildup problems experienced when running 2-stroke engines with partial throttle pedal. HondaLawnParts.com stock parts and accessories honda mini-tiller. We have genuine Honda Parts not cheap substandard aftermarket parts. Select your parts from our parts search charts today.
