Game Information & Offers Our Midnight Castle Walkthrough is a live game guide that includes some helpful tips, tips and tips on how to play the game. We've also included more detailed information on how to deal with every quest you're given as you make your way deeper into the depths of the castle in search of the Mystery Chamber in this exciting free-to-play hidden object adventure game from Big Fish Games! Detailed Table of Contents General Information & Tips Author: Tracy Jerry Date: December-05-2014 Welcome to our Midnight Castle Walkthrough, where we will post tips, answer your questions, and play together as updates come out for this exciting free game, hidden object from big fish games! Our story begins with a letter in the mail informing you that your late Uncle Vesnick has his castle covenants on you. This castle, or so you are told, has a secret wish room that will give the wish of the one who finds it. Determined to ensure that this secret chamber does not fall into the wrong hands, you will go to the castle. Once you reach the castle, you will meet Professor Pinfeathers, your bird guide in this game. It will help you learn how to play the game and provide you with quests to help you move deeper into the castle. Here are some tips to help you get started: Find out where all hidden object scenes are. You'll need to play them again to gather materials for searches and to build objects. Each hidden object scene has a counter that starts after you play it. Once the meter runs down, you will be able to play the area again. Or, if you're in a hurry, you can use diamonds to speed things up. You start the game with a certain amount of diamonds, but as you may have guessed, you need to buy more for real money. Although they can be won sparingly throughout the game as you play. Work one search at a time. If you accept too many missions at once, it will take longer for all of them to complete in full. Try to focus on one search at the time and you'll get the items you need faster. Chain items to hidden object scenes for more points. The sooner you can find items in a row, the more points you'll get, so it's worth a quick time before you start stepping away on items. If you're not sure what to do next, check the left side of your screen for open searches. Each search will show your progress and guide you to the place where you need to go to find a specific item needed to complete it. Pay attention to the items you will find in each HO scene. You will have to return to each scene multiple times to find the same items. That's fake keys in Broken Well. Familiarize yourself with the elements of each scene. As you continue to find items, the list will take longer, but the objects will be the same. It's easier to recognize them quickly when you know what they look like. Look. Keep your eyes open for the flowers that will appear all over your screen. Be quick and tap or click on them. For every 5 flowers you collect, you will receive a reward - either coins or diamonds. If you're waiting for ho scenes to open, this is a good way to spend your time. When I click on the price, it only tells me that 1 will allow / 0 will disable, but there does not seem to be anywhere to really configure it. I'm in CE7.1, if that matters, and NSFW running in the game. None of the other functions in the table work, either. smashbro596 Expert Cheater Posts: 109 Joined: Fri Apr 14, 2017 6:20pm Fame: 9 Post by smashbro596 » Ud Nov 11, 2020 11:09 pm yes the latest version is 1.14s. this table is hella outdated.
