Get ready to go even faster and faster with Osprey Raptor hydration backpacks. The Raptor 14 and built-in 2.5-litre hydraulicTM LT tank ensure you can carry all the necessary tools and fluids to make your personal best. Keep hydrated on the most difficult rides with easy access to the reservoir via asymmetric zippers for guick and easy spare parts. The tube can be routed over each shoulder, and the bite valve is kept in place by a sternum-strap magnet. Key features: BioStretch[™] hipbelt and AirScape tapped[™] backpanel with foam ridges for comfort and zipper fit zip panel access without scratches sunglasses and electronic pocket Stretch front lidlock pocket[™] bicycle helmet connection Features: 2.5 L Hydraulics[™] LT tank included AirScapeTM backpanel with foam ridges for comfort and fits BioStretchTM hipbelt and harness front shove-it pocket Front stretch compression pocket Front Link Point LidLock^M Link Bike Helmet Reflective Graphics Stern Strap Buckle with Magnet Stretch Front Pocket Stretch Eye Side Pockets Zip Scratchless Sunglasses and Electronic Pocket Title on a Long, Hot Ride? It's all right, it's all right Air^Mscape ventilated rear foam panel and strap keep you cool while still offering offer for unrestricted traffic. BioStretch TM belt and hip belt also offer high levels of ventilation, while performance-fit configuration keeps the packaging from moving off the shoulders during more technical descent. The sternum strap can be connected and detached with one hand, thanks to the innovative magnetic buckle closing system. Osprey's unique 1 LidLock accessory provides a fast and secure connection point for your helmet so it stays safe and scratch-free without taking up space inside your package. All your tools are easily organized and transported within the internal quick access compartments. The base of the package contains our Quick Access Tool¹, which stores all your vital bicycle tools in a split pocket, keeping dirty or greasy tools safely and the stretch pocket complete with drain hole, provides an ideal space for bulky additional items or can be used to hide wet objects on the go. Front compression straps can be used to hold a full face helmet or body armor as well. Reflective graphics and lightweight LED accessory help keep you visible when the weather turns or night falls. Included in the delivery: incl. 2.5L Hydraulics ReservoirMaterial name from manufacturer: 210D Nylon Diamond RipstopWeight Supplement: Spec Manufacturer лидратор на 14 л, ралработанну ллл велосилилистов и ралро ТВв, которлл тоставлется с релерварол обелол 2.5 л и лололнол констрлиел, наполненнол тролуманли лункили лраненил.
