Ortho roundup heavy duty 2 gallon sprayer

Top Reviews Latest Reviews Top Reviews This evaluation is for the Two Gallon Round-Up Sprayer. The fit and finish are good, there are no sharp edges or plastic fragments left to trim. The sprayer comes with a five-year warranty. The assembly of the unit was simple - the hose was already attached to the tank, all I had to do was fix the wand and tip on the hose. No tools required - threaded plastic parts are large enough to secure by hand. The filling hydrant of the tank is wide and easy to pour liquids into, or fill with a hose. The tank is partially seen through so that you can see the level of the liquid in the tank. The handle releaser has a locking position so that if you are spraying a large area you do not have to press and hold the release. It's a nice touch. The spray nozzle has a three-position selection that allows you to choose current, cone or fan patterns, and is easy to rotate. The spray wand is attached to the unit upright for storage (see photo). The only drawback is the lack of a depressurize valve; The model I received has instructions to put the sprayer on its side' and point the nozzle away from you and allow the pressure to disperse. It is not a great solution; I noticed that the slow release of the threaded cap allowed the pressure to escape easily. YMMV, but I don't see this as a downward check, my previous sprayer had a pressure release valve that was continually clogging and I ended up removing the threaded top in that unit as well. Overall a very nice apartment and I hope to get a lot of use of it this summer. HTH Greetings, Jim ©2020 Walmart Stores, Inc.
