Einige Word-Funktionen k'nnen on Google Docs nicht angezeigt werden und werden bei anderungen entferntDetails anzeLetzte änderungen anzeigen Thank you for selecting the advanced guitar effects processor ZOOM Player 2020 (hereinafter 2020). The 2020 is a sophisticated multi-amp device with the following features and functions: • A total of 19 individual built-in effects, which can be combined into patches of up to six effects of five types. 20 preset patches and a user memory for 20 add-on patches offer extraordinary flexibility. • Built-in pedals and informational control panel display settings at a glance and allow easy operation as a compact effector. • Compressor and distortion effects are generated by analog circuits, to ensure rich sustain and distortion effects and natural sound. • By using the optional FP01 or FS01 foot controllers, pedal wah effects and switching pedal effects on/off are possible, for greater gameplay. Please take the time to read this manual carefully, in order to get the most out of your 2020 and ensure optimal performance and reliability. 1Página 2 Precauciones de seguridad • • •
