Click Clear Progress to unlock all levels, Plazma Burst Forward to the Past is located in the future, when scientists have figured out how to travel in time and you are 1 in 2 volunteers who return in time to change the past and save the future. Except something went wrong and they sent you somewhere else, and now you have to break through this second place to try to find your way home. Cheats are a series of types of codes that can be used in both Plazma Burst: Forward to The Past and Plazma Burst 2 to give the player advantages in the campaign or special benefits. Cheats are a way to usually make the game easier or just another way to experience the game. Plazma Burst 2 To use cheats in Plazma Burst 2, you must have finished the campaign (including bonus level 42) and have root capabilities. Then you can use cheats by simply pressing enter in-game and typing cheat, then press Enter to reactivate. Root ability To get root capability, you need to change the name of your character to root or .Eric Gurt.. To do this, refresh the page (or reopen the game if you're playing an offline game). After the game loads, click Continue, then rename the character, and then click Accept. Cheats list bot 1 (Allows AI control over Please note that this will not allow you to manually take and use the kinetic module, but everything else will remain normal.) bot 0 (Disables AI control over your physique and side effects.) God 1 (Multiplies Your Health by 100,000. Use this several times to enhance the effect) God (Same effect as God 1.) God 0 (Multiplies Your Health 0.00001. The effect is increased by multiple uses.) gm (The rate of health recovery will be frozen at the lowest rate (usually increased during regeneration). To undo the command, type cheat again. Note that the effect applies to each character on the map.) render 0 (Deactivates game rendering.) renders 1 (reactivates game rendering.) very slowly (game speed 0.25x.) slower (0.5-speed game.) slowly (0.75 game speed.) normal (default game speed.) fast (1.5-speed game.) 1.1 25x game speed.) faster (1.5x game speed.) very fast (2x game speed.) extra fast (3x game speed.) uber fast (4x game speed.) through fast (5x game speed.) friends (Enemies are already attacking you and become your allies. At levels where the card is allowed to switch to allies, using this cheat allows you to switch to the enemy, and see their health.) dm (all vs all, enemies fight each other.) kill you (explodes your head, kills you. If the game is paused, it will not be killed until the unpause game. In multiplayer, say -kill.) Kill enemies (Kill enemies without destroying your body, set their current state of health to 0.) give them all (Gives all weapons from marine shop equipment, all upgraded to level 3 (including defibrillator, which can not be updated normally). A warning message appears.) zoom 25 (The camera is heavily zoomed out.) zoom 50 (The camera is delayed, the same zoom level as if the player is in Dog Walker.) zoom 100 (The camera is at the default amount of zoom.) zoom 200 (the camera is magnified to your character.) hyper jump (Big jump.) headshot (Remove head without immediate death. The same effect, if you pause the game, enter kill, then God and unpause the game. Do not use this cheat when strict casual regimen is allowed. Also, once you have any damage, either from weapons or falling damage, your head will appear, but layering it will be fixed behind the body of your character.) debug 1 (Activates debug mode that highlights hitboxes.) debugging (Same effect as debugging 1.) debugging 0 (Deactivates debug mode.) quick start (Set your money to \$999999 &amp; give warning message.) no players (Unspawn all teammates and enemies from the level. This does not disconnect the Player.) No vehicles (Unspawn all vehicles from the level. Do not use this cheat when you are in the vehicle.) No weapons (Unspawn all weapons from the level. This includes your own weapons.) no barrels (Unspawn all barrels from the level.) no lights (Lamps can not be broken.) no lamps (Same previous.) Grow (Increases player scale, as well as hitpoints and camera angle.) shrink (Reduces player scale, as well as hitpoints and camera camera Grow enemies (as well as grow, but for every character except the player.) shrink enemies (As well as shrink, but for each character except the player.) give X (Gives the player level 3 of any specified weapon using the weapon ID - it can be seen in the lower left corner in advanced level editor when you change any model of weapon.) skin X (Changes the player's skin to the specified ID - it can be seen in the lower left corner in advanced level editor when you change any character model.) skins enemies X (Same as skin X, but for all other characters except the player.) Warning message Some cheats run a warning message that tells you to clear your saved data to give you a chance to unlock more achievements. If you run it once, it will appear after each phrase you type on your console, as well as at the beginning of any campaign level and custom map. To get rid of it, you need to delete the saved game data by going into options and pressing the Delete all saved data button. Other notes bot 1, bot 0, render 1, render 0 and kill cheats can work without root capability as well. Bot 1, gm and debugging /debugging 1 cheats will be transmitted between levels if not disabled manually. If you reduce your health through a single God 0 (e.g. from 500 to 1) and then use God/God 1, it will return your health to normal instead of multiplying it. Plazma Burst: Forward to the past to use cheats in PB1, just press ~ and enter the cheat, then press Enter or click exec to activate cheat. Cheats list morehp (This sets your health at a very high value. The exact value is based on your level of armor upgrade.) moreall (Set your grenades count to 100th) pbteam 0 (Team set to Team Noir Lime.) pbteam 1 (Team set to Team Marine.) pbteam 2 (Team set to Grubs' team.) nextlv (Skip Level.) God (Kills the player.) bohmode (Same effect as god.) noclip (Same effect as god.) idddad (Same effect as god.) sv. cheats 1 (Same effect as god.) pbsilentkill (less violent version of god.) kill (Same effect as pbsilentkill.) Notes The pause button (P) pauses the game even when you have a cheat window open. If you want to pause, press P again. If you set the armor upgrade level very high (by editing the save file) and then use morehp cheat, your health will be reduced. Reduce.
