He is living the dream, and his marriage to the haunted Vivian is at the center of it. But below the shiny surface of this perfect existence, fault lines are starting to appear . . . and no one is more surprised than Russ when every aspect of life he has taken for granted turns upside down. In a matter of months, Russ finds himself without a job or a wife, caring for his young daughter as she struggles to adapt to a new and puzzling reality. Launching himself into the desert of single-parent parenting, Russ embarks on a journey at once terrifying and rewarding - one that will test his skills and emotional resources beyond anything he has ever imagined. Ebook Sort By: Most of the most useful stars fewer stars latest compelling story compelling good story that touches you to the soul written in two by two what a much admired story. He just pulled out of life. This is a story that makes you laugh and cry and everything with a romantic touch. Nothing is an exaggeration. Another super topper from a super writer. I can't wait for another book of his to come out. Personally, I think the English version of his books is the best. The Dutch version does not have the feeling and depth, but this is of course everyone's personal opinion. At least it's worth reading an English version for lovers of your books. You'll understand what I mean. Compelling good story Written in two by two like many of his books, this book by Nicholas Sparks is an absolute success! If you like your writing style, you should definitely bring the book to your home! Hard to enter predictably written in two-by-two This book has some drawbacks, namely: Hard to get into, predictably exciting compelling story good story definitely recommended for those who are fans of Nicolas Sparks books. This book has a little more depth, it's not just about romance and I like it. It beautifully shows the evolution of a married couple, problems, arguments about daughter rearing, deception, the importance of family ties, and the love between father and daughter growing up. Written in two by two What was disappointing this book! The story lasted too long. He continued to be bored for too long and for three quarters of the book very little happened. I have read the book many times and I really picked it up again to read it. The ending, on the other hand, was very beautiful and emotional.
