Kitchen cabinets jacksonville fl philips hwy

What's so cool about kitchen cabinets? Of course, they serve as a convenient resting place for pots and pans, and they give a sweep to your culinary space. But kitchen cabinets, even a standard variety, can be converted for use in a variety of indoor and outdoor living spaces, too. Whether you've remodeled your kitchen and closets to spare or just want an inexpensive way to renovate the decor, the cabinets offer an economical and unique way to organize craft supplies, paddock clothes and accessories, and decorate your abode. The inexpensive kitchen cabinets you'll find in stock in home improvement stores offer a variety of finishes (although you can choose an unfinished model if you're going to add a custom coat of paint) and come in standard heights and widths perfect for DIY projects. And don't lose sight of these avocado green cabinets if you make room for the kitchen of your dreams - even the most outdated cabinets can become useful and artistic additions if you upcycle them into something amazing. From tiki bars toy chests, check out the amazing things your kitchen cabinets can become. Content Why pay hundreds for a thin table to sit behind a sofa when a pair of kitchen cabinets can do the job - for just a few bucks? To create a one-of-a-kind sofa table, place three to five kitchen cabinets floor side by side and combine them together with wooden screws. Standard cabinets are 3-inch (7.6-centimeter) increments 12 to 60 inches (30.5 to 152 centimeters) wide; The number of cabinets you use will depend on the length of your sofa. You can leave the closet doors in place for out-of-sight storage or remove them to turn the cabinets into display shelves. Advertising After the cabinets were attached to each other, it's time to put the icing on the cake. In this case, this means that topping cabinets with solid material such as medium fiber density (MDF), is 2 inches (about 5 centimeters) larger and wider than cabinets, and then paint it according to your personal style. You can also use granite or marble for a more quirky look. Love shabby chic? Then give your new sofa a table layer of paint and an energetic scrub with fine-grained sandpaper for a rustic finish. If modern furniture fits your style, then sandwich cabinets between stainless steel countertops and industrial foundries source: Siper. Crafts are fun, but the materials they require can be, well, crafty. Leaving in disarray, decorative paper, tape, glitter and yarn tend to attract other wayward materials - and soon, almost every horizontal surface will be populated by past project debris. Installing multiple repurposed kitchen cabinets, however, can help contain the clutter. You can buy or recycle basic cabinets to create a receptacle workspace. You can install wall cabinets about 2 feet (70 (70 above your work desk to keep supplies within the reached arm. However, if, like many people, your craft kingdom is actually headquartered in the spare bedroom of your home, you can't constantly attach cabinets to the wall. Advertising Just screw the sides of the floor cabinets together and top them with laminate countertops. You can even adjust it to the perfect height, which will help you get crafty without damaging your back. Standard cabinets are 30 to 36 inches (76 to 91 centimeters) tall; If you prefer something shorter, you could see off the lower-base cabinets (or ask your supplier to do so; most home improvement stores provide a cut to fit services for a nominal fee). Add casters to make your supply cabinets portable - and so you'll be able to pull them off the wall to get kamikaze craft supplies. If you have children, then you've probably experienced a common problem: there are many more toys than you have storage space. If the ratio between toys and children of your family is 16 to 1 (or equally overwhelming number), the solution may be as close as your kitchen cupboards. You can repurpose a used or new closet by converting it into a toy chest. Advertising the upper kitchen cabinets, the kind that you find attached to the wall, will work best for this project because they don't have a base like floor cabinets do. Just place the closet on your back, with the door up. You want to replace the original loops with specially made safety loops that don't allow the doors to slam on tiny fingers. After repainting the closet of cheerful color, you will have a room and a smart place to store toys - on the cheap (source: Andreev). If there is one place that is a mess magnet in most homes, it is a laundry area. Even if you have a room dedicated to the task of washing, drying and folding, other household items seem to be a way of migrating there. Solution? Ingenious and inexpensive storage, thanks to a convenient jar of kitchen cabinets. If your laundry, or laundry room, has room for improvement, consider installing top and bottom kitchen cabinets. Leaving the doors on will hide different and different items, such as laundry detergent, out of sight - and you can attach a corkboard or refine them with chalk paint to create space for notes and lists. Or you can remove the doors for the modern storage option and add baskets to keep small items such as sheets of fabric softeners, powdered or mat-less socks in check Source: Best Homes and Gardens. Advertising for a creative turn on the usual kitchen cupboard door, turn it into a mini art table that is just right for toddlers to flex their creative muscles. All you need is a front panel For this project, preferably with loops and a door still attached - although if you don't have the entire panel, just the door will work. Before you start, You need several supplies, including paint and pre-fab foot furniture about 6 inches (about 15 centimeters) tall - you can buy them at the home improvement store. If you only use the door, just remove the loops and handle, fill the resulting holes, attach pre-fab legs and repaint the whole piece to create a toddler-sized table. Advertising If you have a whole panel to work with, you can create a tiny supply table. In addition to other supplies, you will need a thin but durable piece of wood with the same dimensions as the outer frame of the cabinet panel. Then attach the wood to the back of the cupboard, thus creating storage space between the door and the tree where you originally reached through the panel and into your office. Remove the door handle, attach your feet to the back and paint. When finished, this art table will look like a breakfast in a bed tray (which it can certainly double as), but with one important difference: keeping the cabinet door functional, you'll let the little Rembrandts flip over the cabinet door to get their supplies source: Ucreate Crafts. If your free time includes sophisticated, fruity cocktails (or if you want it), the backyard tiki bar is probably on your wish list. You can create your own tropical escape, complete with as many coconut and bamboo accouterments as you want, by fashioning three 60-inch (1.5-meter) kitchen cabinets (or any length suited to your space) in a midcentury tiki lookalike. Join the kitchen floor cabinets with wooden screws and trust them with ceramic tile with tropical patterns and flowers. Apply waterproof sealant to the cabinets, even if they are located in a secure open area to make sure they last. Or, you could install a bamboo veneer and finish thatch. If you're feeling very crafty, you can install a working sink so you can take advantage of the water supply when mixing drinks source: Garden Web. Advertising If there is one place where there is such a thing as too much storage, it is a garage. If you're tired of navigating tower boxes with tools or mountain boxes with toys as you make a crazy dash for the car, then it's time to create simplified, useful storage. Repurposed kitchen cabinets are the perfect - but often overlooked - garage storage option. For this project, you can use either a base or an upper cupboard. Attach industrial casters to the bottom corners of the cabinet to make it portable. Inside the cabinet, you can use shelves to arrange vehicle maintenance supplies or garden tools. Or you can remove shelves for a receptacle vertical storage and create a special space for sports such as baseball bats and tennis rackets. And by adding a piece of medium-density fiber board (MDF) or plywood at the top of the cupboard, it can double as a desktop (source: Salk). Advertising If your years The closet has gone from gorgeous to crowded, it's time for a new approach. You can start by installing several well-proportioned kitchen cabinets in walls or on the floor - they will have built-in features to help keep your clothes and accessories organized. An outdoor closet with drawers or shelves is perfect for storing everything from sweaters to shoes to the side, but within easy reach, and you can add decorative containers to keep jewelry and scarves at your fingertips, too. Need a place to corral high boots and tote bags? Remove the doors of the wall cupboard, place it on the side and - vual! -- the perfect organization for your stylish collection. And, because most walk-in closets are next to the bathroom (and therefore the water source), you can add a coffee maker or even a plumb water line to the base cupboard and create a coffee shop, the best weekday morning accessory of all source: The best houses and gardens. Advertising The combination of kitchen cabinets - or a standalone kitchen storage piece like a porcelain paddock - can work overtime in the home office. Best of all, you can customize the installation to meet your organizational and storage needs. Are you struggling with the towers of books and magazines? Do you feel overwhelmed by the constantly multiplying papers and office supplies? Then you want to choose a lot of out-of-sight storage, and one of the best ways to do this is with kitchen cabinetry. A stack of semi-finished documents and those I'll read them someday magazines behind closed doors in the floor or wall closet. Add a coat of paint to the cupboard door to create a convenient place for reminders source: Best homes and gardens. Advertising If you value the decorative appeal of an open cabinetmaker, remove the cupboard doors and use baskets or boxes for a group of small items and create aesthetically balanced stacks of reading material. If you want to add a quirky or rustic touch to your office decor, you can replace the wooden panels on the cupboard door with chicken wire, fabric or simple or textured glass Source: Inspired Room. Does your living room need extra seating? If you are looking for a trendy and inexpensive way to relieve the load, rotate the kitchen cupboard wall on the side with the door loops at the top, so that it opens like the top compartment on the plane. Repaint or repaint the closet, add a soft pillow or pillow and attach wooden legs to the corners to give it a furniture finish. If you opt for the casters, the cabinet turned bench can easily be moved around the room. Hidden recesses are great for keeping games or DVDs out of sight, but within easy reach. If you are in the market for something more Ottoman-shaped, just attach your feet or to the back of the wall cabinet, not - and be sure to remove the door handle or handle before inviting guests to sit source: Andreev. Whichever way you want to want Mod it, always do a quick weight check before you start converting a piece of furniture not originally designed to seat people in the seat - this may need to be strengthened first. I didn't get too out of the box with the kitchen cabinets in my house, but after researching this article, I guess I just might. With visions of toy chests, tiki bars and of course amazingly organized laundry dances in my head, I have projects all lined up. At the same time, the kitchen cupboard we installed in the garage will have enough. Designed for pantry, but especially convenient for storing gardening supplies and dog treats, it was an island of tranquility in a space that could become a sea of baseball bats or footballs, depending on the season. Maybe I need to add a bank of kitchen cabinets there too. Of course, there's one I can fit basketballs in. and more dog treats. Similar articles by Andreev, Sasha.
