Download 2020: My And Enter the Future Now! By Kelly Day One: Ooh looks fun and I hope you don't have a lot of problems after downloading; Yay fun, this is actually really fun after spending a lot of time you've got a big city; Ugh omg I have to wait for the stupid plane to raise money after spending months in it, you can get back to the game and it crashes take you to your screen mode : Ugh why does this like seriously I hate this game!!!!!! Later you realize the pleasure of mot at all keeps crashing and being like this a***** I suggest without even look at it just scroll and not download it because it's just a waste of storage, time, and if you don't download it good luck just don't say I didn't say I didn't!!!! I was warned by Kenneth after I played for about a week I came to the conclusion that these games suck. It's not as much of a game as a money-making scheme. After a tutorial that keeps giving you the energy to complete missions to try to get addicts, this goes away. It takes loads of crazy energy to complete tasks, and some s as much as 60% if your energy!!! Then she either waitfor more hours or take advantage of her constant offers to double your energy or real money game money!!! Broken buildings and start daily flooding that if you can't collect them sesame you can use your energy to fix them, by the time you did repair the buildings and do one of the available rental missions you're stuck waiting for energy again, it just give us real money and we'll help you uninstallthem!!!!!!!!!!!!!! I have real bills to pay and real houses to fix need my money. But you are more than welcome to play this game and give them your parents hard earn money to rape us. 2020: My By This game is a lot of fun. You can try what it takes to run the country. I wish you had more control over what you build but in every good game. Easy to play and keeps you interested. Fun but... By McKenna this game has the potential to be super fun. I've played it every day for months. My problem is that it is very difficult to get things done. The game requires a lot of the player to get very little done. Like, just to expand your territory, it can take weeks because there are some items you need that can only come from scenerios and the game decided when those scenarios become available. And if there is any special being like going back to school, you have to get all the buildings fully built before time runs out. If you don't, the game leaves you stuck with buildings that can't be finished, and they won't let you delete them. So those unfinished buildings take up space just really frustrating because the game is pretty fun actually. I just wish they didn't make it very difficult to get things done I think the game was misdeleted. I became very boring and I don't want to spend my real money just to get things done. (I can find an address, but the server writes over it with the original amount over and over again. And I haven't tried to mess with the assembly for this yet...) However, I know that you can hack achievement counters. For example, a clear area starts as 0/10. Clear 0 as exactly 4 bytes. Clear one rock/shrub/tree, and then use 1 to clear the next.. (like any game) repeat until you discover the site usually takes me 3 to start and then mod value to 1 less than the completion requirements, and do one more to get (Even the game sends to the server) for the next completion level, the counter address is different, but if you scan on 0 and 1, you'll be able to find the correct address. (it will be near the original, but I haven't looked for a pattern...) mod to the lower one and then do again to finish the achievement. This was great for clicking clouds, where level 5 was like 10,000 clouds... I've done it successfully to move any building, collect profits from any building, drive off the clouds, and place bush.
