The fact that you can't say that this image is not from the original manga. 9 Under The Moon by Nyoronoryo One of the saddest parts of the Sailor Moon Manga and show is that viewers never really come to Chibiusa. However, in the scenes in which she is shown as the Dark Lady, fans can see that she will look very similar to her mother. This image of the future princess Chibiusa is from @Nyoronoryo and is done in a beautiful watercolor style. It's nice to see that Chibiusa is in a dress with pink instead of just pure white. 8 Super Sailor Chibi Moon by Cheriuki The Sketchbook and is amazing, no matter what character is drawn in it.
