[1] It was first released on September 19, 2016 for Android and iOS operating systems in Thailand. [2] The global version consists of 3 servers released later on February 16, 2017 and supports South Korean and English. [3] The game is described as the SRPG character collection that allows players to create their party with characters of their choice, without the gacha system, real-time PVP arena and various types of raid battles. [4] It offers real-time battles with 3D graphics. [2] [5] As of September 22, 2017, the game supports other languages, such as French, German, Portuguese, Russian, Spanish, Thai and Vietnamese. The game also supports English and Korean voice dubs. The Japanese server, voice and language were added to the game on March 23, 2018. [6] The game took place on the mainland called Orbis, a land of swords and magic. Players follow a story of a knight in training called Kasel, who tries to uncover the mystery behind his brother's disappearance. Along the way, he meets his childhood friend priest Frey, the magician Cleo and her bodyguard Roi, and also meets many other heroes played back. [7] There are several playable characters called heroes that players can purchase by purchasing in-app, hero tickets, giving NPC heroes, or building a friendship at the inn. These heroes are divided into 7 classes (knights, warriors, assassins, archers, mechanics, wizards and priests), 2 types of attacks (physical and magical) and initial notes that can be increased by awakening. Players can assemble a party made up of 4 heroes who are able to cover the front line, the middle line, and/or the back line. In some ways, it would be raid the boss of the world, the player can make an 8-character party (although, 4 of them are automatically controlled). Anime 2016 Korean role-playing mobile game and upcoming Japanese anime series King's Raid: Successors of the Will? 継 episodes) Anime and manga portal On April 2020, an anime television series adaptation titled King's Raid: Successors will 継ぐ Kingusu Reido Ishi o Tsuugu Mono-tachi) was announced and premiered on October 3, 2020 on TV Tokyo. [8] It has a different story from the original plot of the game, as well as original characters cast by Ryōta Suzuki and Yoshino Nanjo. [9] The series is animated by OLM and Sunrise Beyond, with Malato Hoshino serving as a serial composer, and Tatsuya Arai designing the characters. Masahiro Tokuda composes the music of the show. [9] [10] Members of the Japanese version of the game will reprise their roles. [10] frpSide performs the opening track of the legendary future series, while KOTOKO performs the series's Stick Out. [11] Funimation acquired the series and will broadcast the series on its website in North America and the British Isles. [12] The series will run for 26 episodes.
