LEMUEL SHATTUCK - REPORT ON THE GENERAL PLAN FOR THE PROMOTION OF GENERAL AND PUBLIC HEALTH DEVELOPED, PREPARED AND RECOMMENDED BY COMMISSIONERS APPOINTED AS PART OF THE DETERMINATION OF THE MASSACHUSETTS LEGISLATURE, RELATING TO THE STATE HEALTH SURVEY. (1850) This report is one of the basic public health documents in the United States. This is the first systematic use of birth and death records and other demographic data to describe the health status of the population. His recommendations became the basis of the sanitation movement in the United States, which saw life expectancy increase from 25 years in Boston in 1850 to more than 75 years to 2000. The proposed law in Part Four of the report is the first attempt to write a comprehensive public health code. CONTENT Report of commissioners. 9 Subject given and defined: I.
