Vocabulary power answer key

Students are responsible for completing three chapters a week outside of class. A version of the quiz appears in the book every Friday. When you learn a new word, you need to know what it means, how to spell it out, how to pronounce it, how to use it in a sentence or sentence. How to use VP2 effectively Take your time. Don't try to go through the chapters. Always type out the words in sentence completion exercises. (This will help you notice and practice spelling.) Think about the meaning of each sentence as you work on the exercises. In Word Families, think about how we use the word in each phrase to find the right part of the speech. Is an expression an infiny or a verb expression? Does the word in bold type the axe (noun or verb) or modifier? Distribute the three hours over six days: the first lesson is Saturday/Sunday, the second Monday/Tuesday, and the last one is Wednesday/Thursday. Be sure to take the quiz after the third lesson before taking the quiz in class on Friday. Check all responses at the answer button below. Use the book's vocabulary spelling city and/or memidex.com pronunciation symbols of words to learn how to pronounce each word correctly. The words of discussion and words writing exercises are not necessary, but very useful! Ask him if he's not sure he used the words correctly. If there's something you don't understand, ask for help. Make sure you can pronounce every word correctly (use Spelling City or, of course, your dictionary. Another good source is memidex.com. In the box, type the word. Then click the sound symbol. You can listen to both British and American pronunciation of the word.) Be sure to spell every word. Use the games spelling city to practice and also to test yourself (Spelling Test). Another way to study (low-tech!) is to analyze the word: notice that the word is written. Pay attention to double consonants, consonant combinations (such as -ck), silent vowels, and vowel combinations (common is ea, oa, ei, ie, ai, ay, oy, ou, aw, aw). Practice writing the word several times until you think you know. When you practice the word, look at it, say it, and write it out loud as you write it. It uses three senses (vision, hearing, touch) and helps you remember the word better. Then try writing the word without looking at the spelling. (Alternative: record the words in software such as chibit.com, and dictation) Then check the spelling. If you've made a mistake, pay attention to what you've done wrong and think about what spelling should be right. Repeat until you are sure that you can write the word exactly 2-3 times in a row without error. Review the next day. It can also help you to sing your own! Of course, do not lose sight of the meaning(s) and parts of the speech you are learning pronunciation and spelling! Vocabulary Power 2 Answer Key Chapter 1 Words Collocations and Phrases (p. 7) 2. (in) Debt, Fall (a) Debt 3. Reflect The 4th Sibling Rivalry 5. Assist (Us) in Reading Words (p. 8) 2.
