Hedgehog for Hire clawed its way out of the ruins Machinima.com, returning to fans after more than half a decade since its original ending back in 2013, now with the increased representative to be associated with Rooster Teeth. For those who don't know, Hedgehog for Hire followed a more cheeky and foul-mouthed version of Sega's beloved mascot that he, Tails, Dr. Eggman, and Earthworm Jim (for some reason) processed jumping through several temps to make ends meet. But because that premise would go thin pretty quickly, things soon escalated when Sonic became a father, joined and took over the mob, went into space, traveled through time, rebuilt the universe and became God. Seems like a pretty solid place to end things, doesn't it? Well, the creators thought so too since that's where the show signed. But because the show is back with a legally friendly name and needs to squeeze out at least one more season plot, the story this time starts with God-Sonic and Tails to find out about the recent release of Sonic Mania (but somehow none of the other Sonic games that came out between 2014 and 2018) and then decide to abandon the deity to create their own new game. This plot is quickly dropped completely less than halfway through to deal with Eggman's daughter, who plans to take over the universe and bring Eggman back to her evil ways. This is despite the fact that Eggman (at least this version) has never really shown much of an evil side throughout the previous seasons, pretty much dissolving any potential excitement it might be if he had. The series is cut into three to four minute bits (making each a big bitch to write 400 words a week to week), but going back and seeing the old seasons made me notice that they were each given thirteen episodes, where this season only got eight. And even with as sporadic as these seasons were in humor and tempo, about forty minutes of space for the story gave them room to create a clear arc that led to a feasible conclusion. The season starts with Sonic running the mob, the season ends with Sonic being thrown out of the mob. The season starts with Sonic in space, the season ends with Sonic returning to Earth. And so on. This season, which has just over half of this regular running time, ends up both rushing AND dragging as the focus on creating a new game is basically goalless until Eggette shows up at the end of the fourth episode, then begins her conquest of the universe. It's also where I notice that every last season also at least focused on a plot that was about Sonic and friends proactively searching for or doing something, whether it was work or power or god, whereas this season is mostly them reacting to Eggette things and not developing their characters at all. Remember that there was not so much development before this point, but it was still more than this. And that's without mentioning the ridiculously inconsistent release plan across both the Rooster Teeth website and VRV. Sometimes the episodes went up on both, sometimes it was just one, sometimes there were neither. Never before have I been so annoyed at not seeing three short minutes of nonsense that I don't even like. I don't know if this has anything to do with this show being a rescue from or if someone on RT just had it out for this series in but making people slowly distrust whether it was even coming out definitely did some harm. Whether the damage will mean it is finally put to rest is up to fate. It's hard to say whether Hedgehog for Hire will return for a ninth season. They plotted kind of escalated as high as it could possibly go back in season 7, and this return was deficient at best. And more importantly, have enough people watching and caring about this show continue to continue working on it worth it? But Rooster Teeth' policy of renewing shows has often been if they watch, we will continue to do so. It's hard to say how many people are actually looking at this, but I guess we'll find out soon enough. In the meantime, I have to go fast to get a pre-order ticket for the terrible live action movie! 2/10 Bubbleblabber's Review System Aiheeseen liittyvät sivut SONIC is finally coming to college!
