Sailor moon proplica wand

Tamashii Nations is pleased to announce all new brands of high quality goods: PROPLICA. A fusion of the words Prop and Replica, this new category has been garnered from Bandai's decades of role-play category know-how, and employs state-of-the-art manufacturing technology to make realistic props replicas of even the most demanding collectors. The first item in this series will be a faithful 1:1 scale replica of the iconic Moon Stick from Sailor Moon. This elegant replica measures just over 10, and offers accurate views with colorful details and light-up tricks. Sound effects and vocal recordings (featuring Sailor Moon's original Japanese voice actress, Kotono Mitsuishi!) have also been used to further add to the realism of the Moon Stick, with the attachment and removal of silver crystal activating new lines and effects! An excellent display stand is also included for performing this masterpiece. Be the hero for which you were born and receive the gratitude of the Moon Kingdom. Requires three LR44 coin-cell batteries (sold separately). 10 inch (25.40) 1/1 scaleMade of plasticSound effects and vocal recordings Excellent display rackRequires three LR44 Button batteries (sold separately) Sailor Moon Proplica Moon Stick General Safety Warning: Products sold by BBTS can be designed for adult collectors. You can also view World War I memorabilia from vintage uniforms to medals to capture a moment even further back in time. Ad-World Memorabilia The world of advertising is rich in the history of collectible memorabilia. Of course, there are Coca-Cola collectibles, but they're not just soda advertising collectible baskets around. Scan through eBay's advertising memorabilia section from gas and oil memorabilia to nostalgia from the technology industry to get an idea of the huge amount of what's available among eBay's collectibles stores. Cards, cards and other cardsTrading cards are some of the oldest collectibles in the modern world, not baseball cards. But baseball cards are just the tip of the iceberg when it comes to trading cards. All kinds of sports cards have significant value, as well as more modern trading cards like Pokemon and Yugi-Oh. Similarly, collectible cards from sci-fi blockbusters Star Wars and Star Trek are fan favorites. Everything else in the world of memorabiliaPrime these more frequent collectibles, eBay has a seemingly endless category when it comes to unique and sometimes valuable collectibles. From calligraphy tools to rare and unique pocket knives, various special tools and objects cover any profession or hobby. Road signs are fun collectibles, and can have value for the right eye. And don't forget Disneyana (something that deals with Mickey's hot world) and his endless tour of Disney Trading Pins to complete his favorite character sets. Scan the current collectibles section (since 1968) to find the latest Disney items you want to add to your collection.
