Patti nielson interview

Say, Oh, that's disgusting! It's quiet in the library, Daniel still hears the explosion, but they sound farther away, maybe in the cafeteria. Daniel looked around and saw a man get up and move to the West Gate, Makai told him, let's go. Daniel told investigators he felt bad that he didn't help Patrick because he knew Pat was still alive. He was treated with a shotgun, a grenade in the leg. He took five tablets to the knee and one to the chin. Daniel graduated to Columbia on May 20, 2000 ^ above.
