I am proud to be able to say that no other district is more passionate about the success of its students than BESD, and assure you that even in these unusual times, we will continue to find ways to demonstrate this commitment. I have never been so proud of our staff, our community, and our students because their collective response has consistently focused on helping each other. We often say that BESD manages to maintain a family atmosphere; it's something that really sets us apart from other districts. In times of crisis, families gather and support each other, and that is what has happened in our community in the face of COVID-19. Whether it was to ensure that our families were fed, provide technology to those in need, or rethink and restructure our entire teaching model, the BESD family rose to support the community and each other. Today, these efforts continue and even expand. BESD is really a special place to be! We are a fast-growing neighborhood in the fastest growing city in the country. In the fall of 2021, we will open our eighth campus, named after the late Senator John S McCain III. The K-8 School is a computer science immersion school that will capture in its educational programs many of the characteristics that the senator stood for. In the other seven campuses you will find a number of offers, including STEM/STEAM, PE for all students, art, music and band programs. There are over 5,800 students who enter our classrooms every day, and nearly 700 employees who call BESD their family workplace. We are second largest employer in the city of Buckeye! In fact, I would recommend you to explore some of the links below to learn more about us. City of BuckeyeOur SchoolsA Sneaking Summit at John S.
