Lounge Lizard EP-4 is an electric piano synthesizer that delivers authentic sounds of Rhodes and Wurflitzer in everything you need. In the When time matters, just choose from over 100 custom electric piano presets. But when sound intelligence is on the program, players will dig in real-time control over the hardness of the hammer, tooth color and decay, damper noise, and pickup placement for unmatched level customization. Live on Stage Giggling musicians will appreciate a small memory trail of Lounge Lizard, instant instant recalls, and stability. In addition, the huge library of Rhodes and Wurflitzer sounds, as well as a complete selection of effects makes it easy to build a set list and get the perfect tone for each song. Alive Beneath Your Fingers There is something quite exciting when the connection develops between the player and the instrument. Whether it's a perfectly smooth progression rate or an interactive reaction to your performance, Lounge Lizard makes this connection happen. In addition to the Electric Piano Lounge, Lizard achieves compelling electric piano tones with less than twenty synthesizer parameters. This is quite a feat in itself, but pushed on, these parameters reveal the kingdom of other tones.Organs, bells, chimes, leads all featured in the experimental folder preinstalled library. Custom tones Although famous players share the same brand and model, they have all been achieving their own signature sound. However, this is usually meant to spend many hours under the hood with screwdrivers, wrenches, or even iron solder. Sequence Analyzer - Perform a mining sequence. Navicat Data Modeler Essential - Create and. Toad Data Fashion Designer - Create High. Visual Fitting Pro - Fit data with linear and superficial models. Download the neuro-solutions software. What's interesting with Lounge Lizard is that whether you're looking to emulate a certain sound or just find your own, all these tricks are just a few handle turns away! NEW FACTORY Library - The fully revamped factory library includes classic sounds from Rhodes and Wurflitzer, as well as more than 200 gigabytes of custom electric pianos that use a compressor, equalizer and multifunctional processor. NEW COMPRESSOR and Equalizer - These new additions are perfect for adding punch and definition to your sound, allowing you to cut through any dense mix or scene. NEW Character Control - The new character control provides five classic studio and stage signal emulations - it's a closet, a pre-amp, a microphone, and a circuit recorder that follows the output of the piano - easily tightly fit your electric piano parts in your track. NEW LIMITER - The new output limiter protects your ears and monitors while experimenting with the parameters of physical piano modeling, while providing maximum without distorting the dynamics. NEW Streamlined Interface - Redesigned from scratch, the new interface now divides Lounge Lizard EP-4 into three panels: Play introduces shortcuts for the main piano and effect settings, including workarounds for quick edits; Edit lets you get under the hood and the voice of the piano to taste; While FX delivers equalizer, compressor, multi-effect, and reverb processors responsibilities. NEW Bank and Program Manager - The new Lounge Lizard EP-4 provides a simple and efficient organization, backup and audio exchange. UPDATED Overhaul Effects - Updated, Polished, and customized For electric piano, Lounge Lizard EP-4's multi-effect processor has our best sounding chorus, delay, phaser, flanger, distortion, notch filter, wau-wau, auto-how, and reverb to date! NEW Native 64-bit audio unit (AU) and VST Plug-ins - Lizard Lounge EP-4 now runs in native 64-bit on Mac OS X and Windows, making it compatible with the latest sequencers. The best just got better! Once again, AAS raises the bar in recreating the classic Rhodes™ and Wurflitzer™ electric pianos. Lounge Lizard EP-4 not only delivers the authentic tone of the originals, but also retains their action and feel. Once you get your hands on Lounge Lizard, that elusive electric piano sound becomes a vivid reality. Using our award-winning physical modeling technology, we've come up with improvements that have taken one of the most impressive and unanimously recognized programs to the next level. The new features in Lounge Lizard EP-4. NEW Factory Library A fully revamped factory library features classic sounds of Rhodes and Wurflister, as well as over 200 gigabytes and ready-to-mix custom electric pianos, using a well-built compressor, equalizer and multi-equipment processor. NEW compressor and equalizer These new additions are perfect for adding punch and definition to your sound, allowing you to cut through any dense mix or scene. NEW Character Control's new character control provides five classic studio and stage signal emulation pathways - this cabinet, pre-amp, microphone, and circuit recorder that follows the piano output - easily fit your electric piano parts in your track. NEW Limiter The new output limiter protects your ears and monitors while experimenting with the parameters of physical piano modeling, while providing maximum without distorting the dynamics. NEW Streamlined Interface, redesigned from scratch, the new interface now divides The Lizard Lounge EP-4 into three panels: Play presents shortcuts for the main piano and effect settings, including bypass switches for quick editing; Edit lets you get under the hood and the voice of the piano to taste; While FX delivers equalizer, compressor, multi-effect, and reverb processors for final form duties. New Bank and Program Manager Lounge Lizard EP-4 provides a simple and efficient organization, backup and audio exchange. UPDATED: Overhaul effects reinvigorated, polished, and customized specifically for electric piano. Lizard Lounge EP-4's multi-effect processor has our best sounding chorus, delay, phaser, flanger, distortion, notch filter, wow, auto-wow, and reverb to date! NEW Native 64-bit audio block (AU) and VST Plug-Ins Lounge The EP-4 now runs in its native 64-bit on Mac OS X and Windows, making it compatible with the latest sequencers. Other key features of Lounge Lizard EP-4: A brand-new modeling library makes full use of the enhancements and cover covers your needs are an electric piano. The high-end effects section has been expanded with tremolo, vau, chorus, phaser, delay, reverb and equalizer, making The Lizard Lounge a complete and standalone electric solution for the piano. Two types of pickup trucks are now available for a wider range of characters: electromagnetic (Rhodes™) and electrostatic (Wurflitzer™). Francis Preve, Keyboard As a Logic User, I relied on his included plugin, EVP88, for my electric piano in recent years. But after a while with Lizard Lounge, I start to have a second thought. There's something about the texture of this plugin that's a little warmer and more organic, not to say anything about its overall flexibility, making it a great alternative or addition to the competition. Of course, the EVP88 only works with logic, so if you use any other DAW and want to killer classic electric piano sounds, the Lizard Lounge EP-4 is a non-head meow that you really have to do it for yourself to check out. John McJunkin, Remix If you want an electric piano, this is the only product that you need. You not only retain the weight and most of the genuine article, but also gain control and abilities that overshadow the real electric piano. In addition to the shiny electric piano emulation, you'll also get some good effects right in the same package, not to mention the possibility of a snapshot that perfect tone you tweaked before 3am. Parametric controls give a crowded tone, from clean and bright for ballads to dirty and rough for blues to phased and filtered for funk. If you are touring, you will thank Applied Acoustics for this gift from heaven. But even if you don't, this tool will inspire you to do things you didn't know you could. Computer Music It's when you pump The Lizard Lounge hard and dirty thing that you get the best results (.). As well as coming up with the dirty tones that retro funksters would love, we managed to create many sounds that were worn little or in the absence of sound similarities to those to be produced on traditional electric pianos, so without denying that AAS produced a versatile instrument. (Lounge Lizard) offers something really different at a very competitive price. He may have a slick name, but this bad boy can be funky as the devil. Devil..
