Press and press the time zone button until the display starts flashing. then Choose UP/FF or choose the Down/RW button until the preferred time zone setting is complete. Press the time zone button again to exit time zone mode. If daylight saving time is applied, adjust the DST switch based on the unit. The next step is to fix the time. Press down and hold the button to adjust the clock or set time for about two seconds and release. The button is present either below or above the unit. As soon as the time can be set, the display starts to shine. To change the hour, press and hold the Hour set button. The display screen displays the current hour. To set minutes, press the Sleep or Minute Set button. For some models, these buttons do not exist. In such cases, press Select UP/FF or choose the Down/Rev button until the screen displays the correct time. Adjust the clock or press the Set Time button to confirm the time setting on the clock. Listen to two beeps or wait for the display screen blinking off; This confirms the installation of clock time. Manuals, dock inserts, FAQ, troubleshooting, accessories and more.
