Scroll down to find the version and display the version number you own next to it. For 4.2.1, please read the steps below to unlock your iPod. 2 We go to the page which is a jailbreak website from the easy way www.greenpois0n.com can do our job. You'll see Jail Firmware 4.2.1 on the right side of the page, and you'll have two options just below. Click the second one called Greenpois0n RC6.1 (Win) to install it. 3 The pop-up window displays an option called Greenpois0n, which appears just below what you call README. When you click Greenpois0n, you will see another window similar to the following: Get ready for jailbreak. 4 The wizard guides you through four simple steps: ready, hold down the sleep button, hold down the sleep button, hold down the home button, hold down the home button, hold down the start sleep button, and hold down the home button. If you follow the instructions correctly, you'll see a window that says Jailbreak. Click on the window to exit. 5 When the process is complete, the iPod should flash white, return to the black screen, and start displaying many white characters on the screen. Wait until this is over. After that, the Apple symbol will appear, and before that you will see a jailbreak signal that is an image of the skull. 6 When the device is booting, go to the charger and press Install Cydia. This is where you download Installous, available from the app. After 7 Cydia is installed, it will open and you will see several buttons in the background, tap Manage. Tap Sources Tap Edit in the top right corner. Tap Add at the top left. In the box, type . Then tap Add Source. After loading, enter the Users section and click the link Hakulo.us. Scroll down until You see Installous to get all the apps. 8 Open the installation that should be on your iPod in the area where the other apps are lying. 9Aqui Se Puede Navegal y Bascal Las App Cassiosines Ke Mass Te Gustensi Ves Una Appication Ke Te Gusteria Consegill, Solo Tianes Ke Abrila y Haser Click En Descalgar. Habla eun-Monton de Enlus I, General Pol Lo, Sueren Fancional Todos Bastante Bien, Specialmente los Primeros. Si Al Hassel Click en Uno Se Abre Una Pagina Nueva, Entins Sabras Ke Esta Trabajand.
