

Four leaf clover tattoo meaning in jail

Ok, so here's the point I turned to my useful ex-friend. Who, incidentally, has become AB (applause all around). So, here's what he took (and yes, he did have some three-leaf clover on him). Yes, the three-leaf clover is a very prominent tattoo on AB. It exists to symbolize our Irish and Gaelic roots. The three-leaf clover is arya's pride in it at its purest! Often we'll have 666 or AB tattoos on it, or on it, but clover is the most meaningful part! (At this point he lifts his shirt and shows a tattoo of a three-leaf clover, with 666 in the middle, and vines growing above and around 666.) If you get a four-leaf clover, and don't have any other potentially gang-related tattoos, you should be fine. So, it's from our useful ex-fraudster! Hope it helps! Does the ayran fraternity think of clover leaf 4 as one of the tattoos or just a shamrock? Clover leaf 4 is not related at all to the aryan fraternity as far as I know, but even clover is not seen as an aryan fraternity tattoo exclusively. Their members usually have AB or swastika tattoos on top of shamrock. Or sometimes 666. Reply: As far as I know the answer is yes and no. A standard AB tattoo is a three-leaf clover with AB or 666 in it and possibly a swastika but members also very commonly wear 4 and 3 leaf leaf tattoos without other indicators as well. If you don't dress like a gang member or have an 8-inch Yosemite Sam manchu fu that you most likely don't have to worry about, though I'll avoid the general gang member's place for it (especially the hand and neck net). Prison tattoos are a practice of getting inked while behind bars. Many prisoners do so to assert and convey gang membership, to show their rank within the gang, or to display their ability to withstand pain, while others choose designs that symbolize their time inside or use tattoos as a mark or code to display their crimes on their skin f

supplies, and this is why they find methods and other devices of existing materials, things like paper clips, staples, mechanical pencils, ballpoint pens, and other random parts. They also improvise their own ink by taking it from a pen or making it from mixing liquid rubber, plastic, or Styrofoam, soot, and shampoo. Lack of equipment and sterile can cause health risks such as infections or diseases (including hepatitis, HIV, tetanus, and many others). This is why most prison tattoos look rougher than professional and represent an additional level of danger and risk. Tattoos made in prison done only with black ink and has dark lines with little or no interior details or shadows. Recently, the poke stick 'n' tattoo do-it-yourself method has been going on in prisons around the world for over a hundred years. Below, you'll find information about various U.S. gang tattoos and other interpretations of common prison ink designs. Note: Prison tattoo terms may refer to those performed to mark time in prison, performed in the style of prison tattoos, or in more general terms, performed to indicate criminal activity. The Mexican Mafia tattoo and its meaningThe SureñosThe Sureños, or southern Mexican Mafia, originated in Los Angeles, a city notorious for its gang activity. The gang identified itself through blue and gray (which is also the color of the L.A. Dodgers and Duke University). Sureños are often very visible to their body art. What does tattoo number 13 mean? Sureños loves the number 13 and displays it in many different styles. They can use Arabic, Roman, or even Aztec numbers. The 13th letter of the alphabet is the letter SEME or eMe can be tattooed somewhere on the body, especially the upper arm. MM letters can also be used. What does a three-dot tattoo mean? The three points are also closely related to Sureños. You often see them in the faces of gang members. They sometimes signify high ranks in gangs. Usually, only people who actually go to jail will have three dots on their face. The dots may also represent the words mi vida loca, or my crazy life. Norteños are a northern group of the Mexican Mafia. The common sorting line between the mafias north and south is Bakersfield, California. Norteños are enemies of Sureños. They call themselves nuestra familia or use letters to show gang loyalty. What does the tattoo of the 14 fool mean? For Norteños, the number 14 is significant. The 14th letter of the alphabet is the letter 'N' for Norteños. They also used variations of this number in Arabic. Roman, or Aztec notations. What does an MS letter tattoo mean? Norteños uses many abbreviations. MS may stand for Mara Salvatrucha or Mi Sueño or any kind of Spanish phrase, so be careful not to have initials tattooed on your body if you can avoid it. There are some people who are willing to live life with a brand on their face, especially those who mark them as criminals. In prisons and prisons, faces and hand tattoos are the most telling of all. What does teardrops have a lot of meaning for the wearer. They also mean different things to people who see tatts. The meaning of teardrop is very personal and may or may not mean the same thing to everyone: This is what makes it a dangerous design choice. Some say the teardrops indicates how many kills the wearer has done. It can also signify a warning to gang members killed in action, so to speak. Sometimes women will put teardrops on their faces if their man has died or gone to prison. Teardrops on the left side of the face can mean something different from the teardrop on the right. Only the wearer knows exactly what that means. Teardrops can be filled, or empty. Empty teardrops may indicate attempted murder. It may also mean that one of the inmate's friends was murdered and they want revenge. Each of these designs have been popularized by rappers and other celebrities, but that means something that dies seriously in prison. The best advice for anyone considering someone is to consult an experienced artist before getting any facial or hands, for good reason, which you should know. Aryan BrotherhoodWhat does AB tattoo mean? The Aryan Brotherhood (AB) is a strict white supremacist gang. These people are neo-Nazis who strongly believe in the primacy of the white race. Hitler was their hero, and they did not recognize the rights of other races, believing that non-whites were only useful as slaves. These people are crazy and dangerous. As a result, if you get AB tattoos, you can provoke black and Mexican gangs. Can anyone get an AB tattoo? The Aryan Brotherhood is very protective of its members. AB design is not permitted on non-members under any circumstances. The only way to get membership is by the method of blood in/ blood coming out. In other words, you have to kill the AB target to make your bones and you have to be voted on unanimously. The only way is by your own death. If you are white, you can choose to hang out with AB and receive protection while in prison, but the tattoo is reserved for true members. AB usually support themselves through drug trafficking, but they are not limited to activities and and involved in almost all types of crimes. These people are cruel and unless you are one of them, it is certainly best to avoid any design that has an Irish or German association. Even the Norse God may be a new style for AB. Other tattoos representing white supremacists: Don't use the number 666 or the Gothic letter AB. A swastika or Nazi symbol is also a bad idea. The number 14 or 88) is often displayed on white supremacists. This is a reference to the 14 words in a quote by Nazi leader David Lane: We must secure the existence of our people and the future for White Children. 88 refers to the 8th letter of the alphabet twice, or HH, or Heil Hitler. Usually, these tattoos can be found anywhere on the body. Celtic's knot may be fine, although no one knows if AB will adopt them. The Black Guerrilla Family consists of many groups. They are politically oriented and fighting for equality. The Black Guerrilla family became a force to be reckoned with in 1966 during the Civil Rights Movement. Black people were organized into many organizations including the Symbionese Liberation Army, the Black Liberation Army, the Weather Underground, the United Nations, the Black Family, the Black Vanguard, the Black Mafia, and others. They have anti-government views that are causing problems for prison administrators. The Black Guerrilla family is close by and can be very dangerous. Be careful with tattoos that have the number 276 in them. Avoid also tagging yourself with an area code that designates a part of your home country. They can associate with almost any gang except the Aryan Brotherhood, but will sometimes try to work with AB if it is mutually agreed and beneficial. Large segments of the prison and prison population are Black and Hispanic so they are generally outnumbered and oppose AB. For this reason, the Aryan Brotherhood has tightened their tattoos to blend in with the general population while incarcerated. Black Gang TattoosBlack gang tattoos include many prison-related symbols and fight for the cause. Forest animal chain sign language numbers (such as 276) phone area codes lock, lock, and keyhole weapons, knives, artillery, weapons Certain gang initials, e.g. BGF for Black Guerrilla Family Other Miscellaneous Gangs and Their TattoosThe Texas Syndicate: A group of Texans imprisoned in California started this group. They are closely related to the Aryan Brotherhood and are known for their extreme violence and the special TS marks they rarely use. 18th St. Gang from West Los Angeles: They started out as second-generation Mexican immigrants. The group has become national and now includes non-Hispanic members. They may have 18th Street, XV3, XVIII, 666 same as 18). Dieciocho, or Eighteenth Street is spelled. Tie The Kings of Chicago are known for their three-point and five-point crowns and their five-point stars. They start their gang name with the king, as in King Carlos or King Beto, etc. They are a Latino gang and their slogan is Amor del Rey'(ADR) or Love of the King. Female Gangs are still in the making. Most women cling one way or another to male gangs and may have the same tattoos, although they are not considered true members. Their ranks increased, however, and gangs of all girls began to emerge in the prison population. Asian gangs have been around for years, some transplanted from their home countries. There are Triads, Tongs, Yakuza, and Boryokudan. They are involved in home invasion and car theft-type crimes and they will often work together for protection in prison. These gangs have a lot of names and a lot of tattoos. It is probably best to avoid Chinese or Japanese characters unless you are quite sure what they mean and that they do not signify gang affiliation. Native American gangs have formed across the country in response to other gangs clustered above them. Native Americans may be associated with outlaw motorcycle gangs. They tend to protect Native American interests in and out of prison. At best, these gangs help protect Native Americans. At worst, they are a collection of teenagers who indulge in crime, drugs, and violence. Native American tattoos are all considered sacred and must be obtained. As long as you don't go overboard with native American symbols or have them put on your face and hands, you have to be pretty safe. Biker gang criminals should be avoided at all means. These gangs are very loud and protective of their members. They have many requirements for club membership. Skull tattoos are common, as are motorcycles, leather goods, and weapons. They prefer to use patches sewn into pieces of their skin. However, they do like to be inked —a lot. Dead Man Inc. (DMI) is a mainly white prison gang with members in many correctional facilities across the US. WikipediaOther Common Prison—so long the wearer is covered in cobwebs. This design represents how the wearer gets stuck behind bars like a fly in a cobweb. (If you look at the multi-colored web, it's probably not a real prison tattoo; in prison, there's no access to colored ink.) The cross on the chest, especially in a Russian prison, represents the prince of thieves, which is the highest rank an inmate can achieve. This sign is reserved for mafia kingpins. Five dots is an international design that represents the time in prison. Also known as quincunx, four dots are placed where the square angle may represent four walls, and the fifth point in the middle to represent the inmate. A watch without a hand is, quite clearly, a symbol of doing time. Sometimes inked on on wrists are like watches, other times elsewhere and shaped like pocket watches, wall clocks, or grandfather clocks. The fact that the watch has no hands represents how time stands still or loses meaning when you're inside. Playing cards is often used to show how life is gambling and criminals caught have been dealt with poor hands. Sometimes found inked on knuckles, these letters stand for evil, evil, cruel, and evil and are worn by criminals who revel in their crimes. A.C.A.B.: This acronym is often found in British inmates and stands for all cops are. Carefully Get TattooedSalah your responsibility to know in advance what your tatt means. If you get the wrong kind and end up in jail, you may have to pay for that tattoo with your life. Tattoos are often an important way for prison gangs to mark membership. If you are arrested, gang members will protect you as one of their own or target you if they think you are posing as one of them. Only true members are allowed to have a particular design, and if you don't qualify, they will burn it from your skin or worse. They also won't use anesthesia, so be careful! If I need a correction, please let me know. Lela (author) from Somewhere near the heart of Texas on April 08, 2020:Comment From: Mianltd780 -Hello, let's call this constructive criticism. I spent many of my early vears as a tattoo artist and I respect your intention to create the tattoo hub you wrote. Know is when I tell the truth. Because of the colossal amount of incorrect information contained in the verbal diarrhea center that you call the hub should be down. Guaranteed it causes more problems for people than answering anvone's guestions. This is complete in justice for the tattoo world. Fill your readers with fear no need to get a tattoo. Almost all of your definitions are wrong or just random facts of how many different sources you read or have to say are barely scanned before you write that hub. Everyone who gets a tattoo has their own reasons for doing it. Yes some it may be related clubs or gangs, but then there are the majority of tattooed people who are not bertausi or affiliated with or members of clubs or gangs who get tattoos because they are just plain and just like getting tattoos. The thought of being beaten or killed by a gang or club member never, not in a million years comes to mind before getting a tattoo. The whole hub has to be shut up and rewritten properly, you know what I mean. You have to really research gang tattoos as well as prison tattoos. Because they are two different subjects. Yes many of them crossed but when broken down differently overall. The public in general poop throughout the tattoo is guite like that so there is no need for others who are mis information to the masses. Yes! Please do your research if you are going to get a tattoo! Lela (author) from Somewhere near the heart of Texas on May 7, 2018: Just do a little at a time and you'll achieve a lot. Oscar Ortiz of Edinburgh, TX on May 07, 2018: I of course, I'm currently working on it but I'm working on it at the moment so when I have time to do it, I'll definitely get it. Thank. Lela (writer) from Somewhere near the heart of Texas on May 7, 2018:Oscars, can you write a hub in some stories? I would love to hear them, and I'm sure others will too. Thank you for commenting. Oscar Ortiz of Edinburg, TX on May 7, 2018:Prison tattoos have a profound meaning, many people don't understand that. It's so much more than what other people think, it's a story about our lives, the story behind TATOOS Prison's story and an interesting subject. Cuurly on December 12, 2016:Many of these articles are highly inaccurate. If you want some information about updating and fixing this, I would be happy to help. Ruby from the United States on March 15, 2016:mysticalmoon don't get mad at the author, take it with gangsters... but if you want, get this tattoo and walk the streets lol!! Torn. Can you check with your local law enforcement office? Ask someone who knows about gang tattoos. But just for personal reasons, I see no reason not to get it. If you venture into a possible gang area, you can cover it with makeup or clothing. RipLaCapone on May 23, 2015:One question I planned to get an Aztec Indian face tattoo of but I wasn't sneering, was this a good or bad choice I made? Cynthia Zirkwitz of Vancouver Island, Canada on December 28, 2014: An interesting hub that has spawned many equally interesting comments. I've watched my husband try to cover up his old tattoos, remove them myself with various DIY methods, and finally let them all hang out. There's nothing like a 65-year-old with something on your arm that you etched in there when you were heartbroken, drunk 17. I'm glad he doesn't have any dangerous signs that might... Debra Allen from West By God on August 23, 2014: Well this is an excellent hub. The girl in the prison system had teardrops filled in her face. He also has a rather large red bull that starts just below his chin and covers the full front of his neck. Oh yes we discussed that I knew that he would be a part of would hire him with it. I've spoken to a lot of young people and they're just not aware of the changes and the implications that will happen to this permanent sign in the future. Lela (author) from Somewhere near the heart of Texas on August 23, 2014: Hi shirleymax – I appreciate your info! I don't go to jail to interview anyone or check with actual gang members. But I do want to give some kind of advice here to people who want a tattoo, but don't have a clue about what some tattoos could mean for others. This is one of my most popular hubs, so people want to know! I think they'll take your advice along with me to make a decision about the type of tattoo to get or not to get. Thank you!shirleymax on August 23, 2014: A lot of this info is wrong, also some comments like a Latino staring at my clover in a supermarket is just ridiculous. No gang member will have a problem with a straight citizen who has clover or similar tattoos if obviously you're not 'repping'. Also regarding clover or shamrock tatoos: they are absolutely fine to have both inside and outside the system. Almost every Irish man in prison has a clover or four leaves. This is putting three 6 or 'AB' that will cause problems. Anyway if you are a law-abiding citizen you can whatever you want as long as the gang is not overtly related. 13, shamrocks, all things are fine and even in the system it doesn't matter. Also in most non AB state systems white people generally have swatstika, the federal system is where you find problems with it. Basically memeber gangs won't have a problem a citizen gets any tattoo on the grounds if you are definitely not a gangbanger or accidentally get a gang related tattoo. I say all this from the experience of being in supermax country. Bunny Sly on July 28, 2014: worse than anyone with a gangster tattoo without a tattoo. Lela (author) from Somewhere near the heart of Texas on June 22, 2014: Thank you restedmemory. Nice handle, BTW. Sometimes I feel like it's not just my rusty memories. David Hamilton of Lexington, KY on June 22, 2014: Very interesting article, I've seen a lot of these tattoos but never knew the importance, exactly. Good, UpvotedLela (author) from Somewhere near the heart of Texas on April 29, 2014: Hey diogenes! Thanks for the kind words! Maybe his real Indian name is Mysticalbull? Stolen tattoos? I don't know about them. diogenes from England and Mexico on April 29, 2014: For Mysticalmoon. You're not in a position to tell Austinstar his job is a bunch of bulls, especially when we haven't seen hub one of you yet. 'Star is one of our most respected writers: you are, on the contrary, unknown. You won't gain respect or glory by sending barbed comments (your comments are quite reasonable and stand alone without malicious opinions). So think about what I've said (being here 4 years and 400 hubs) and start working alone, while it apologizes to Austinstar's most dignified and restrained in its reply to your snide comments. BobLela (author) from Somewhere near the heart of Texas on April 28, 2014: Mysticalmoon – I wrote this hub to hopefully hint at some people who have no prior knowledge of gang tattoos and their meaning. You are right that indigenous cultures around the world have been making tattoos for centuries. Sometimes it means something personal. Mysticalmoon from Idaho Falls, ID on April 28, 2014: What a bunch of BULLS. Native Americans have been making tattoos for hundreds of years and some of those tattoo designs were stolen from them. When people get a tattoo it's because they choose to speak their mind. They know what they're getting and they're going to get it no matter what price it is. Lynsey Hart from Lanarkshire on 28 April 2014: Great hub. I learned a lot! I don't think I'll ever have one of those gang tattoos done by accident so feel pretty safe about that lol! Kelly Umphenour of St. Louis, MO on February 27, 2012:yes lol - or maybe I'll put in the form of a guestion on a downtown graffiti wall? Like a forum post? LolLela (author) from Somewhere near the heart of Texas on February 27, 2012:whadaya did, sent them a polite email and asked if they would change their name? LOLKelly Umphenour from St. Louis, MO on February 27, 2012: Hey it's not that crazy - I'm appreciated for closing my mouth, I think!! LOL LOLI is sick for the last few days - viral or something.... Wakakak. Dave said il said crazy things in my sleep last night too:) Haha! I think it was applause! Wakakak. Chips... The basement will be better I'll see if they'll change it! Lela (author) from Somewhere near the heart of Texas on February 21, 2012:Hey, you beat my hubscore for the day Questions? - Are they called 'basements' or 'applause'? I'm not sure. But I like the name 'saddle bum'. Kelly Umphenour of St. Louis, MO on February 21, 2012:Way cool hub! You know how much I hate tattoos :) IoIIn St. Louis - they use 314 - we also have blood, basements, bum saddles (motorcycle gangs) and lots of AB and skinheads. Personally I am most tattoos - as body art - but I don't like to see them used as methiod intimidation as they do for gangs. That's just my opinion though.... I LOVE the info here - pick it and all that! Lela (author) from Somewhere near the heart of Texas on February 17, 2012:It's always best to avoid face and hand tattoos. The exceptions are makeup tattoos such as eyeliner and ring tattoos on the fingers that can be very beautiful. Must have avoided teardrops and initials. The ink crowd is different for sure. Om Paramapoonya on February 17, 2012:Interesting hub! I've always wondered what teardrop tattoos symbolize. I don't want to get it. My face is the last place I'll consider wearing a tattoo. Rated and punctued! AkaiMiko on February 15th, 2012:Wow!! It's just crazy, it's getting so that someone can't have a genuine fondness for number 13 or have their initials A.B. or a tiger that looks ferocious on their body or something... What a world lol. Finance Hub from Portland, Oregon on February 15, 2012:Wow what an interesting hub on an interesting subject. I never knew prison tattoos could have so much meaning behind them good or bad! Selected and interesting and I hope you enjoy my hub too! Lela (author) from Somewhere near the heart of Texas on February 15, 2012:No, Lady T - I don't find your comments offensive at all. Believe me, I would say so if I did or just banned comments. I respect the info that contributes, thank you! Bob, I don't know what's going on in the Walls unit anymore because I no longer live in Huntsville. I have a friend who was in the system for 5-10, but he's out now and living in Maine. The only time I went inside was when I applied for a job there at the prison hospital and I often visited the TDC public relations department. I write for college newspapers and do articles about prisons. Go to some Execution party and generally try to avoid that part of town. Outside, Huntsville is a pretty good place to live diogenes on February 15, 2012; ves. Star. You walk small in walls. Lots of baddies waiting for this and others there. I only spent a few days there luckilyBobLady Tenaz on February 15, 2012; I hope you don't think I mean anything rude by my comments. I'm just trying to give you a clearer understanding of some of the tattoos you're talking about. And I agree, no one should get some kind of tattoo, period. Motown2Chitown on February 15, 2012: This hub is very cool and very informative, Austin. I watch a ton of prison shows and they concentrate a lot on tattoos, as you I'm not against tattoos at all, but I agree with you - get it where the majority of people won't see them or know what they mean and are prepared to explain/defend them if someone asks. I? I'm plain white, no ink. It may not be interesting, but it's safe - mostly. Again Again cool hub. Lela (author) from Somewhere near the heart of Texas on February 15, 2012: Glad to know that some Texas prisons are not threatening. Everything I visited seemed pretty guiet. I thought it was pretty tense when I walked across the yard in the Walls unit, but that was mostly I think. Unit Walls is where most prisoners used to leave just before being released. The Texas Syndicate is even more radical than AB if that's possible. Because you're not from Texas and you're short-term, that's probably why they've never bothered you, Bob. Most evil gangs tend to be 'lifers' because they have nothing else to lose. Lady T - I'll never get a tattoo of one of the L.A. gang signs and symbols (Well there's another in this). The purpose of this hub is to tell people that wanting a tattoo that some of them are very dangerous tattoos to have! Even butterfly tatts are associated with some gangs. It's hard to know what would offend some people. So, if you want a tattoo, it's good to put it where most people can't see it. It will help protect you in everyday life, but not in prisons where you are all likely to be exposed at one time or another. diogenes from the UK and Mexico on February 15, 2012: Great hub on a very complex subject, the US. I lived a dream, as you know, but whatever I know is long forgotten. Teardrops are mainly nonsense, although a sneaky murder can give you one. AB will not protect non AB members, or not when I am on HV. It depends what joint you're in for which group has supremacy, I'm in Wynne, which is a place that's not threatening in general. BobLady Tenaz on February 15, 2012:also, three-point stand for mi vida loca and anyone can get that tattoo on them. Almost everyone I've ever known growing up has tattoos on their hands. It's a thing that comes of an age that a lot of chicanos/chicanas do if they grow up in the neighborhood whether they're affiliated in a gang or not. Christopher Antony Meade from Gillingham Kent. England on 15 February 2012: It is a very well researched centre. Very interesting. I don't have a tattoo. I don't think I'll ever get one now. I don't want to offend the wrong people. Life is too precious for that. Lady Tenaz february 14, 2012:Let me tell you, if you have Trese' (13) on your body before you are locked up, you are in a heap of trouble. even if you only have your city in your body or your neighborhood... You have to put in the work to get ... and when I say put in the work you find out. They are just soldiers in their ranking system, especially in Pena. So if they tell you to put in the work to get their tattoos then that's what needs to be done. I don't agree with that lifestyle but I grew up in it and I know all about prison hoods and tattoos.... and by the way L.A. is not a 13-13 abbreviation of

plain and simple M. Simple. tattoos are never just 13 - but can be area codes (for example; 213).@ DRBJ- even 18 is also not good, if you are in LA (for example; 18th st. XVIII).... LOLLela (author) from Somewhere near the heart of Texas on February 14, 2012:Just put your check account number on top of that 13, no one will ever know, drbj.drbj and sherry from south Florida on February 14, 2012:Dang, Lela, I know I shouldn't have made a big tattoo number 13 all over my body. Maybe I can find a tattoo artist who can turn it into number 18.Great research on a rather esoteric subject. Lela (author) from Somewhere near the heart of Texas on February 14, 2012:Hi Druid! I've not seen you in a long time. I have ordered Hangover II and can't wait to see it. If it was half as funny as the original I knew I'd love it. Hi Alastar! Yes, you don't want to be confused with AB, that's for sure. Why they chose clover leaves 3, I will never know. Just being Irish or of Irish descent doesn't make you a candidate for the Aryan Brotherhood. I think Ace of Clubs, which looks a bit like clover is also considered a tatt AB. Alastar Packer from North Carolina on February 14, 2012:Fantastic hub with a unique perspective here. Anyone considering tat should definitely take over. Learned about it when Latinos started eying my 4-leaf clover tat at the grocery store. I think they think it might be AB. Really though, who would have thought. Good one Lela.Druid Dude from West Coast on February 14, 2012:Have you seen Hangover II? Nice hub. Hub.
