Whether you are looking for simple Spanish sentences, romantic Spanish sentences, or funny Spanish sentences, our sentence builder tool will help you. We currently have over 5000 sentences to help you learn Spanish. If you are just starting Spanish or are almost fluent, we think this will be a valuable tool. If you ever find yourself caught trying to decide between saber vs conocer, this post will help. Saber and conocer are introduced together because they both translate into knowing in English. This can make them confusing. That said, these two verbs are not as demanding as other Spanish challenges that look vs estar or por vs para. This is because saber and conocer have fairly well-defined roles in the Spanish language. But there is a situation where you can use them interchangeably. More on that later. This article gives you a quick overview of when to use saber and when to use conocer. Then we take a look at the present and past conjugations for these verbs. Pay attention to the conjugations of saber because they are quite irregular in the past simple tenses. Then you will find an explanation of an important grammar rule to be aware of with conocer. And, of course, you get a lot of examples for each separate use of saber and conocer. So, having said that, let's dive into quick side-by-side comparison of these two important important Version: Download this PDF version of the rules of Saber vs. Conocer to use as a study reference. Saber vs. Conocer: A quick overviewA I mentioned earlier, knowing can translate to both saber and conocer. So, how do you know which verb to choose? Well, it all depends on what it is that you know. Here is a quick summary of how to decide between saber and conocer:Saber: facts, information, how to do something. Conocer: people, places, things. So for example, if you 'know' a person (a friend or someone famous), you must always use conocer. On the other hand, if you know something that someone did (for example, a speech or an invention), you have to use saber because it is now an information piece. An easy way to avoid confusion with sabers and conocer is to change the way you think about the translation of these verbs. This means that it helps to think of saber and conocer as follows:English: Knowing Español: Saber.English: To meet, has been to, to be familiar with. Español: Conocer. So, a key question to ask yourself is: can you replace the word know in an English sense of meeting, have been to, or to know? If you can, you probably need to use conocer in Spanish.Saber vs. Conocer. Gift conjugations! present, both saber and conocer are regular in all conjugations except for the first person. Here are the conjugations of saber and conocer in the present:PersonSaberConocerYoSéConozcoTúSabesConocesÉl / EllaSabeConoceNosotrosSabemosConocemosVosotrosSabéisConocéisEllosSabenConocenNotice the irregular conjugations and konozco. Saber vs. Conocer: Previous conjugations! pretérito indefinido (past simple tense), saber is very irregular. Here are the conjugations of saber in the two past tenses:SaberPretéritoImperfectoYoSabíaSabíasÉl / EllaSabíaSabíaNosotrosSabíamosSabíaisVosotrosSabíaisEllosSabíanConocíanNotice this makes saber in the past simply one of the stranger verb conjugations in Spanish. I suggest practicing it more than other conjugations to help it hold on to your mind. In contrast, and despite having an irregular first person present conjugation, conocer is quite regular in the past. Here are the conjugations of conocer in the two past tenses:ConocerPretéritoImperfectoYoConocíaConocíasÉl / EllaConocíaConocíasNosotrosConocíamosConocíaisVosotrosConocíaisEllosConocieronConocíanConocer is definitely a simpler verb to conjugate compared to saber. But that doesn't mean conocer is without its own challenges. So, let's look at an important grammar rule you have to think about conocer. Conocer and the preposition 'a'As mentioned above, when using conocer, you will talk about people, places, or things that you are familiar with But if you refer specifically to people, you need to be careful. Here is the most important grammar rule with conocer you need to know:If you are referring to people, you need to use the preposition 'a'. For example:English: I'm familiar with your friend. Español: Yo conozco a tu amigo. If you're not talking about people, you have to drop a: English: I'm familiar with your country. Español: Yo conozco tu país. This use of a with conocer and people takes some getting used to. This is what you probably need to practice the most with this post! If you want to learn more about the preposition 'a' in general, check out this podcast episode. Saber - Use 1 - For factsWhen you 'know' about things like scientific facts, events, or general trivia, then use the saber as follows:English: Do you know where Gael García Bernal is from? Español: ¿Sabes de dónde es Gael García Bernal? English: Does anyone know how many people live in Spain? Español: ¿Alguien sabe cuántas personas viven en España? English: I did not know that there are 21 countries that speak Spanish. Español: No sabía que hay 21 países en los que se habla español. Saber - Use 2 - For informationIf you have knowledge of any general information that may be useful such as where something is located, when a train should depart, or the status of a situation, you can also use saber:English: Do you know what time the train departs? Español: ¿Sabes a qué sale el tren? English: Do you know where I can find this statue? Español: ¿Sabes dónde puedo encontrar esta estatua? English: Yes, I already know that they are separated. Español: Sí, ya sé que están separados. Saber - Use 3 - How to do somethingFor the third use of saber, you can talk about your skills or specific areas of expertise. The rule looks like this:English: I know how to do ... Español: Yo sé... (+ verb in infinitive form or compartment) You must remember that for this use, saber, replaces all how to do in English. In addition, a common error to say: Español: yo sé como ... (I know 'how'). Here are some examples:English: I know how to speak Spanish. Español: Yo sé hablar español. English: He does not know how to sing. Español: Él no sabe cantar. English: I know mathematics. Español: Yo sé matemáticas. To repeat, you may find it tempting to include como when using saber in this way. I know have definitely made this mistake several times. When practicing, try to force yourself to quickly follow the saber with an infinite verb without including como in between. Like many things about learning Spanish, the key is to practice a concept many times to help it last! Conocer - Use 1 - PeopleAs noted above, always remember to include the preposition 'a' when using conocer with humans. English: I'm familiar with your cousin. (I've met) Conozco a tu primo. English: I've already met your wife. Español: Ya han conocido en tu esposa. English: She told me she doesn't know you. (Not familiar with you) Español: Ella me ha dicho que no te conoce. Conocer - Use 2 - PlacesAgain, if you are familiar with places, you must remember to drop the preposition 'a'. English: I'm not familiar with Spain. (I haven't been on) Español: No conozco España.English: I'm familiar with your city because I went there in 2010. Español: Conozco tu ciudad porque fui allí en 2010.English: He knows this place very well. Español: Él conoce muy bien este lugar. Conocer - Use 3 - ThingsThe last use of conocer is to describe your knowledge of things like technology. English: I'm not familiar with the latest iPhone. Español: No conozco el último iPhone.English: I'm well acquainted with that camera, I used it on my last overseas trip. Español: Conozco bien esa cámara, la usé en mi último viaje al extranjero. English: I'm familiar with the technique but I haven't tried it. Español: Conozco la tecnología, pero no la he probado. Conocer in mutual sentencesIn Spanish, mutual verbs are used to describe two people who do the same act against each other. These verbs are constructed using reflexive pronouns. Sentences with conocer in the mutual form are quite common because they refer to two people who meet each other. For example:English: How did you meet each other? Español: ¿Cómo os conocisteis? English: When we meet? Español: ¿Cuándo nos conocimos? English: They met each other in 1991 and have been in love ever since. Español: Se conocieron en 1991 y están enamorados desde entonces. Mutual verbs are often confused with reflexive verbs. Both come under the category of pronominal verbs. To learn more about pronominal verbs, check out this post. The overlap between saber and conocerUp to this point, the difference between saber and conocer should hopefully have been pretty clear. However, there is one area where you may notice overlap between these two verbs on Spanish.You can see saber and conocer used interchangeably when talking about abstract ideas. For example:English: Scientists want to know the secrets of the universe. Español: Los científicos quieren saber los secretos del universo. English: Scientists want to know the secrets of the universe. Español: Los científicos quieren conocer los secretos del universo. There is a subtle difference in meaning between these two sentences in Spanish. But in this context, if you were to translate the idea from English to Spanish it wouldn't really matter if you choose saber or conocer, the idea would be clear. Your luckHow well do you know saber vs conocer? Hopefully, by now, lo conoces como la palma de la mano (you know it as the palm of your hand). If you want to learn more, can listen to the podcast episode on saber vs conocer here. The key to any challenge with Spanish is to take what you have read and put it into practice. Try to use three examples from this post this week and include a sentence conocer and a, a previous simple conjugation with saber, and the third use of saber to describe something you know how to do. How else can you use saber vs conocer in a Spanish sentence? Sentence?
