Kinnick High School is a private school now based in the U.S. Fleet Activities in Yokosuka, Japan. It was originally located in Yokohama, giving it the nickname Yo-Hi, but it was renamed to Navy aviator Nile Clarke Kinnick, Jr. in 1959, after its transition from army to Navy school. Kinnick High School usually has about 600 students and is about 45 km from Tokyo. Kinnick High School is an NCA accredited institution and therefore charges around \$20,000/year for teaching non-military dependents. The history of Kinnick High School was first established as a Yokohama American High School yamate district during the occupation after World War II. Kinnick High School consists of a three-story Main Building, another building that contains a head office, and two other buildings that have music classes, as well as a stage that the school drama club uses in the works. Starting in 2019, additional classes are used as part of a nearby warehouse, which students now call H-Building. It is supposedly a temporary, but possibly semi-permanent, replacement for the old C-Building, which was long dropped and did not meet the requirements for building safety codes. H-Building is about a ten-minute walk from the main part of campus, and passing times had to be changed to accommodate this. From the school year 2016-2017, the teachers of the main building are located near the science department on the ground floor; Computer and English department on the second floor; The third floor of the History and Foreign Language Division; and NJROTC, Mathematics and Visual Arts Departments of the C Building. Note that in 2019 the latter had to be moved to new locations. Music programs at Nile C.
