The benefits are not the best and the job is highly demanding. I learned a lot there but there was nobody much to advance in. Able to move further, management didn't bestWas review this helpful?a typical day of work, very boring, there is no room to break your lunch break, work, majority of the time wouldn't have a patient until about 10 cores. The building needs much repair, would be a good job for some one just getting started in the medical field. Is this review helpful? I've been with this company for a while now and it's overall a cool place to work. I learned a lot about the radiology field and medical terminology. Patients can be a little rough around their corners and the day can sometimes be a bit stressy. Pretty much get to remove or leave early if needed without any problems. The typical day was very busy and faced. I learned to use sympathy with the patients. Management was hard working to ensure the office was running properly.
