There have been guides in the past on this quest, but I wanted to create a guide that had more information and images. Quest Requirements To Embark on a Quest: 3 Gym Badges (via Eastbourne Gym) To complete the quest: 5 gym badges (via Wildhaven Gym) Ancient relics of modern times quest walkthrough starting quest 1. Talk to Professor Sycamore at Sunrock Desert E4. He'll tell you to go to the Sandmarsch Library. Note: Here is a game map if you need (, especially since the Sun Rock Desert can be tricky to maneuver through. 2. Enter the gate at the top of route 9 to get to Sandmarsch Town. 3. Head to sandmarsch city center. You will be stopped by Cascadie, Newpine's sports leader. 4. Enter sand libraries. Go to the door shown in the second picture below to get into the library's back room. 5. Talk to Clifford, Darlinghurst gymnastics leader. It will give you information about relics. 6. Then you will be interrupted by some commotion for the library, so exit the library. Pyrolius, a member of Team Royal, is trying to steal a splash, Cascadie gyarados. Talk to Cascadie and it will run beneath Pyrolius towards the right side of the map towards the Sandmarsh Swamp. Follow Cascadie to help her rescue Splashy. 7. Follow the path to the right side of the Sandmarsh Swamp towards lotad nesting ground. 8. Talk to Cascadie, who teaches Pyrolius a lesson and rescues Splashy. Go back to Sandmarsh Swamp and talk to Clifford. Now we invite you to go on your way to get relics and progress through the storyline. Relics 1: Relics of Lunar Quest 1. Go to Route 12 and talk to Swellow, who will take you to the place of the Lunar Relic. Note: If you don't see this Swellow, you can proceed to step 2, because Swellow may be here if you have progressed far enough in the storyline without completing this part of the quest. Moreover, it is not the same Swellow as thirsty Swellow in the desert. You don't need to complete thirst Pokemon quests to start this quest. 2. In the lower-right corner of the map, type the illusion tree. 3. Progress through the tree of illusion. You have to pass through the door on each floor without discovering a guard Pokemon (Lotad, Kabuto, Treecko) which can only see you if they are facing your direction. Walk only when the guard Pokemon faces a different direction to avoid being discovered. If Pokemon discover you, then you will be sent back to Route 12 and you have to try to go through the illusion tree again. There are no restrictions on how You can try this, so keep trying! 4. When you reach the 4th floor illusion tree, congratulations, you have to solve the puzzle! Interact with the poke ball to get lunar relics. 5. Poke the ball will also deform you into the illusion of asterfall pond. Interact with Mew to get shine candle, a quest item you will need later. 5. When you're warped back to the 4th floor by an illusion tree, don't reset your position yet. Before you go to the exit to switch the text box with more evidence of relics. Now you can walk back to other levels of the illusion tree to be discovered protecting Pokemon and sent back to Route 12, or you can reset your position. Relics 2: Relics of The Sun Quest 1. Go to The City of Niupine and enter Newpine Town House 2. 2. Interact with jars (red boxes) to get newpine keys to unlock the chest containing the haunter (green box). Defeat level 10 haunter and let the haunter follow you and help you on your quest to find relics by providing useful tips along the way. Note: You will need a haunter for the 4th relic, but if you don't like having a haunter with you, then you can interact with the chest again to remove the haunter. You can always re-get the haunter by repeating this step to get the keys and open the chest. 3. From Newpine Town go to Route 5, then Grayview Cave (in the lower right of route 5). Go to the secret cave entrance on the right side of grayview cave, then throw a Shine Candle into the cave to evacuate the spiders and allow you to enter. 4. Progress through the maze using the path shown in the picture below, and climb down the ladder at the end of the labyrinth. 5. Interact with poke ball to get solar relic. 6. Poke Ball will also deform you into the illusion of your home. Interact with Mewtwo to get a Strange Orb, a quest item you will need later. 7. When you are warped back, you can exit grayview cave or reset your position. Relics 3: Ion Relics 4: Wisp Relics 1. Go to the city of Blackfell and complete the essential quest to progress through Blackfell City. This quest guide will guide you with those quests if you need to (viewtopic.php?f=19&p=80002). Zombie's Apocalypse Quest gives you access to Blackfell Caverns. Feeding Fire Quest gives you an Anti-Heat Orb that allows you to progress through Blackfell Caverns. Caring for this daycare, the hunt for honey mushrooms, and luxuries of a home quest allow you to leave Blackfell and progress to Blackfell Caverns. Wildhaven. 2. From blackfell city, go left to the forest of Blackfell Island, then go left to blackfell island cemetery, then go to the upper right corner of the map to communicate with the Ghost Lady. It will tell you a fairy tale that will give you a haunter (which develops to 50 levels of Gengar), then you ghostly soul, quest point will need later. Communicate with statue to enter blackfell caves. 3. Follow the green path in the picture below to go to Blackfell Caverns F2. Watch out for level 60 Pokemon who will attack you as you traverse these caves! Note: If you want Gengarite, red follow the way to the second set of the ladder Blackfell Caverns F4. Interact with poke ball to get Gengarite. 4. Go to the right side of blackfell Caverns F3. Follow the green page on the image below to go to the next part of Blackfell Caverns F2. 5. Go to the upper right corner of the map, and enter the hidden cave marked with a green star to get to the tomb of the statues. 6. Follow the green path toward the statue marked green. Stand in front of that green statue then click X to interact with and turn on that statue. Follow the blue path toward the statue marked blue. Stand in front of that blue statue then click X to interact with and turn on that statue. Follow the way back to poke the ball map enter. 7. Interact with poke ball to get wisp relic. 8. Poke Ball will deform you into the illusion of a private garden in your luxury home. Interact with Moltres to get advice on the next relics and return to Blackfell. Relics 5: Cold Relics 1. Talk to the sea captain at the top right corner of blackfell town to go to Wildhaven. 2. Go to the top right corner of Wildhaven. 2. Go to the top right corner of Wildhaven Town and talk to NPC standing in front of the Wildhaven gym. 3. Go to the Wildhaven Poke Mart (a building with a blue roof) and talk to Seris, the leader of the Wildhaven gym. 4. Enter wildhaven gym and enter the red warp, then an orange warp, then a yellow warp to get into Seris. 5. Defeat Seris, who uses level 75 mental type Pokemon, to get a concentration badge. 6. Exit the Wildhaven gym and talk to Seris, who is in the battle with Team Royal just outside the gym. 7. Enter the Wildhaven gym and follow the green path toward Seris' office to talk to Seris. 8. Leave the Wildhaven gym and take you to Grayview Remote Slope. 9. Follow the path shown in the picture below to move to Grayview Remote Unmarked Cavern. 10. Solve the puzzle by stepping right and left yellow and green tiles to turn on/off switches before you can walk to the center of the maze to interact with the poke ball to get a cold relic. Just trial and error until you reach the center. Note: It seems that the switches are not restarted when you update your page or log in/from your account. Therefore, if the left-yellow switches were activated after the page was refreshed, it will still be activated after the page is updated. 11. Poke Ball will deform you into the illusion of the summit in Grayview. Communicate with Articuno to be returned Remote Unmarked Cavern. To leave, you can return to Grayview Remote Slope and talk to king king or you can reset your position. Complete Quest Congratulations to Complete Ancient Relics Of Modern Quest! I worked in English for memorabilia, but you were soon xD I wanted to add that if you have already reached route 12 or further and you return later to route 12 to complete the relic quest, Swell will not be there, so you just have to enter the illusion tree and continue with the guide from there ... Nice guide and thanks for sharing! Hukora Coach Posts: 2385 Joined: Sun January 25, 2015 12:45 pm after Hukora » Mon Mar 18, 2019 3:44 pm O no I'm so sorry! I didn't want to get into your job, Chile. I just saw that new players were struggling with this quest and wanted to create a manager because we haven't had a comprehensive guide yet; I don't think anyone else would be working on a quest guide that's so old. You are still welcome to continue your guide if you wish. Thanks for the feedback, I updated the guide. Please let me know if there are any other things I need to add or change. The exact quest you need to complete is Power Fire (Part 2 Blackfell City Quest Guide) to get an Anti-Heat Orb, but I suggest completing the third chapter of the Quest Guide as well, as this will be required later in the game anyway. So I'm stuck where to go. [Pokemon] [pokem provider does not block images through a firewall or something. If you can, try using a different device, web browser, or web source to see if you can view the images. On the quest itself, which step is you stuck exactly? Maybe I can explain how to find something if you are specific, where you have problems. Don't be afraid to be skitty in the meowths world. Shipping is good for everyone. All.
